

ChatGPT Visual Cheat Codes

An English, grouped handbook for using visual code words as prompt shortcuts: from product ads and technical cutaways to educational diagrams, style tests, and sensory visualizations.

Catalog	Markdown	Method
642 code words extracted from the PDF source	16 repo-friendly files with README	1-4 code words per prompt recommended

Core Principle

Code words work best as control signals. Start with one primary code word, add subject and purpose, and state explicitly what must be preserved. If the result should be educational: ask for short labels, clean layout, and a clear reading order.

`/explodedview` Create an educational visualization of an e-bike motor. Show main components, short labels, clear arrows, and a clean technical style. Preserve the product proportions.

How To Use The Code Words

- First choose the image role: sell, explain, compare, instruct, style, or transform.
- Then choose one primary code word. Add more code words only if they reinforce the same goal.
- Lock important things: face, product shape, brand colors, format, perspective, or amount of text.
- Iterate with precise changes: more technical, fewer labels, cleaner background, warmer light, or clearer arrows.

Compatible Combinations

Goal	Code words	Example use
Product ad	/packshot + /rimlight + /storyad	Clean mobile ad with strong product presence.
Technical explanation	/cutaway + /blueprint + /callouts	Show the inside and label the main functions.
Education	/whiteboard + /keytakeaways	Make a topic easy to understand in one image.
Comparison	/beforeafter + /featurematrix	Show options or change visually.
Style test	/watercolor + /goldenhour	Soft, atmospheric images with a clear art style.

Theme Map

Group	Count	When it is most useful
Advertising and Campaign	138	For ads, campaign visuals, launches, and social formats where the image should sell, stop the scroll, or feel premium.
Retail and Product Presentation	23	For stores, shelves, displays, packaging, unboxing, product families, and practical product layout.
Camera, Lighting, and Composition	52	For guiding the image's camera angle, optics, lighting, focus, motion, and cinematic feel.
Technical Reveals and Diagrams	159	For cutaways, exploded views, blueprints, schematics, parts, materials, flows, and mechanical explanations.
Process, Instruction, and Safety	35	For step-by-step guides, maintenance, troubleshooting, safety zones, controls, and workflows.
Learning and Explanation	42	For infographics, whiteboards, mind maps, concept maps, summaries, and educational visual notes.
Styles, Materials, and Art	106	For illustration, art styles, textures, craft feel, material swaps, and surface effects.
Worlds, Environments, and Scenes	39	For placing subjects in new environments, building alternative worlds, stage designs, futures, and surreal settings.
Comparison, Variants, and Decisions	12	For before/after views, versions, color choices, feature matrices, pros/cons, and visual recommendations.
Connectivity and Compatibility	12	For ports, cables, adapters, accessories, mounting, storage, and practical fit questions.
Human, Animal, and Body	12	For anatomy, posture, gestures, behavior sequences, environmental relationships, and body-adjacent instructions.
Science, Sensory Views, and Inspection	12	For heat, sound, smell, fields, microscopy, radar, night vision, damage, and authenticity checks.

Advertising and Campaign

For ads, campaign visuals, launches, and social formats where the image should sell, stop the scroll, or feel premium.

Good Prompt Patterns

- /packshot: Create a clean studio image of new coffee packaging for an e-commerce ad.
- /storyad + /scroll stopper: Create a vertical campaign image for a fitness app that feels clear on mobile.
- /luxuryedition: Give an ordinary water bottle a premium look for a limited launch.

Representative Code Words

Code word	Function
/packshot	Use for campaign imagery, ads, or premium positioning with focus on packshot.
/luxuryedition	Use for campaign imagery, ads, or premium positioning with focus on luxuryedition.
/subwayad	Use for campaign imagery, ads, or premium positioning with focus on subwayad.
/storefrontmockup	Use for campaign imagery, ads, or premium positioning with focus on storefrontmockup.
/shelfhero	Use for campaign imagery, ads, or premium positioning with focus on shelfhero.
/launchcampaign	Use for campaign imagery, ads, or premium positioning with focus on launchcampaign.
/productposter	Use for campaign imagery, ads, or premium positioning with focus on productposter.
/socialcarousel	Use for campaign imagery, ads, or premium positioning with focus on socialcarousel.
/storyad	Use for campaign imagery, ads, or premium positioning with focus on storyad.
/thumbnail	Use for campaign imagery, ads, or premium positioning with focus on thumbnail.
/billboardwrap	Use for campaign imagery, ads, or premium positioning with focus on billboardwrap.
/windowdisplay	Use for campaign imagery, ads, or premium positioning with focus on windowdisplay.

Retail and Product Presentation

For stores, shelves, displays, packaging, unboxing, product families, and practical product layout.

Good Prompt Patterns

- /shelfcomparison: Compare our product against three competitors on a clear retail shelf.
- /unboxing: Show everything included in the box for a premium headphone.
- /inhandscale: Show how large the product is by placing it in a hand.

Representative Code Words

Code word	Function
/openboxlayout	Use for retail, packaging, product layout, or everyday presentation with focus on openboxlayout.
/lifestylehero	Use for retail, packaging, product layout, or everyday presentation with focus on lifestylehero.
/ecommercegrid	Use for retail, packaging, product layout, or everyday presentation with focus on ecommercegrid.
/packagingdieline	Use for retail, packaging, product layout, or everyday presentation with focus on packagingdieline.
/shelfcomparison	Use for retail, packaging, product layout, or everyday presentation with focus on shelfcomparison.
/brandcampaign	Use for retail, packaging, product layout, or everyday presentation with focus on brandcampaign.
/retailisland	Use for retail, packaging, product layout, or everyday presentation with focus on retailisland.
/counterdisplay	Use for retail, packaging, product layout, or everyday presentation with focus on counterdisplay.
/samplekit	Use for retail, packaging, product layout, or everyday presentation with focus on samplekit.
/productfamily	Use for retail, packaging, product layout, or everyday presentation with focus on productfamily.
/refillconcept	Use for retail, packaging, product layout, or everyday presentation with focus on refillconcept.
/travelkit	Use for retail, packaging, product layout, or everyday presentation with focus on travelkit.

Camera, Lighting, and Composition

For guiding the image's camera angle, optics, lighting, focus, motion, and cinematic feel.

Good Prompt Patterns

- /goldenhour + /wideangle: Create a warm travel image of a city street in low sun with a clear sense of place.
- /rimlight: Separate the person from the background with a clear rim of light.
- /topdown: Show the desk tools straight from above for a clean guide image.

Representative Code Words

Code word	Function
/splittediopter	Use to guide camera angle, lighting, motion, or cinematic composition with focus on splittediopter.
/dutchangle	Use to guide camera angle, lighting, motion, or cinematic composition with focus on dutchangle.
/droneview	Use to guide camera angle, lighting, motion, or cinematic composition with focus on droneview.
/telephoto	Use to guide camera angle, lighting, motion, or cinematic composition with focus on telephoto.
/wideangle	Use to guide camera angle, lighting, motion, or cinematic composition with focus on wideangle.
/shallowfocus	Use to guide camera angle, lighting, motion, or cinematic composition with focus on shallowfocus.
/deepfocus	Use to guide camera angle, lighting, motion, or cinematic composition with focus on deepfocus.
/studioflash	Use to guide camera angle, lighting, motion, or cinematic composition with focus on studioflash.
/windowlight	Use to guide camera angle, lighting, motion, or cinematic composition with focus on windowlight.
/backlit	Use to guide camera angle, lighting, motion, or cinematic composition with focus on backlit.
/colorgel	Use to guide camera angle, lighting, motion, or cinematic composition with focus on colorgel.
/spotlight	Use to guide camera angle, lighting, motion, or cinematic composition with focus on spotlight.

Technical Reveals and Diagrams

For cutaways, exploded views, blueprints, schematics, parts, materials, flows, and mechanical explanations.

Good Prompt Patterns

- /explodedview: Separate the components of an e-bike motor and label the main parts.
- /blueprint + /dimensions: Create a technical drawing of a modular desk with measurements.
- /mechanismflow: Show how force transfers through a lock when the key turns.

Representative Code Words

Code word	Function
/parts map	Use for technical explanation, hidden structure, parts, or mechanisms with focus on parts map.
/exploded blueprint	Use for technical explanation, hidden structure, parts, or mechanisms with focus on exploded blueprint.
/function flow	Use for technical explanation, hidden structure, parts, or mechanisms with focus on function flow.
/assembly steps	Use for technical explanation, hidden structure, parts, or mechanisms with focus on assembly steps.
/material layers	Use for technical explanation, hidden structure, parts, or mechanisms with focus on material layers.
/component labels	Use for technical explanation, hidden structure, parts, or mechanisms with focus on component labels.
/process sequence	Use for technical explanation, hidden structure, parts, or mechanisms with focus on process sequence.
/mechanism map	Use for technical explanation, hidden structure, parts, or mechanisms with focus on mechanism map.
/motion diagram	Use for technical explanation, hidden structure, parts, or mechanisms with focus on motion diagram.
/construction logic	Use for technical explanation, hidden structure, parts, or mechanisms with focus on construction logic.
/360view	Use for technical explanation, hidden structure, parts, or mechanisms with focus on 360view.
/anatomy	Use for technical explanation, hidden structure, parts, or mechanisms with focus on anatomy.

Process, Instruction, and Safety

For step-by-step guides, maintenance, troubleshooting, safety zones, controls, and workflows.

Good Prompt Patterns

- /assemblysequence: Show how a chair is assembled in six clear steps.
- /hazardmap: Mark risk zones on a machine before servicing.
- /quickreference: Create a compact reference card for how to clean a coffee machine.

Representative Code Words

Code word	Function
/assembly	Use for instructions, maintenance, safety, controls, or workflows with focus on assembly.
/assemblysequence	Use for instructions, maintenance, safety, controls, or workflows with focus on assemblysequence.
/disassembly	Use for instructions, maintenance, safety, controls, or workflows with focus on disassembly.
/stepsequence	Use for instructions, maintenance, safety, controls, or workflows with focus on stepsequence.
/instructioncard	Use for instructions, maintenance, safety, controls, or workflows with focus on instructioncard.
/manualpage	Use for instructions, maintenance, safety, controls, or workflows with focus on manualpage.
/quickreference	Use for instructions, maintenance, safety, controls, or workflows with focus on quickreference.
/checklist	Use for instructions, maintenance, safety, controls, or workflows with focus on checklist.
/decisiontree	Use for instructions, maintenance, safety, controls, or workflows with focus on decisiontree.
/repairguide	Use for instructions, maintenance, safety, controls, or workflows with focus on repairguide.
/problemresolution	Use for instructions, maintenance, safety, controls, or workflows with focus on problemresolution.
/maintenanceguide	Use for instructions, maintenance, safety, controls, or workflows with focus on maintenanceguide.

Learning and Explanation

For infographics, whiteboards, mind maps, concept maps, summaries, and educational visual notes.

Good Prompt Patterns

- /studygram: Explain machine learning as aesthetic study notes with headings and small diagrams.
- /mindmap: Create a visual map of how a SaaS team plans a launch.
- /callouts: Add clean labels to a product image and point out the most important features.

Representative Code Words

Code word	Function
/dosanddonts	Use for teaching, annotation, summaries, diagrams, or visual notes with focus on dosanddonts.
/troubleshootchart	Use for teaching, annotation, summaries, diagrams, or visual notes with focus on troubleshootchart.
/safetycheck	Use for teaching, annotation, summaries, diagrams, or visual notes with focus on safetycheck.
/ingredientmap	Use for teaching, annotation, summaries, diagrams, or visual notes with focus on ingredientmap.
/recipeflow	Use for teaching, annotation, summaries, diagrams, or visual notes with focus on recipeflow.
/nutritionlabel	Use for teaching, annotation, summaries, diagrams, or visual notes with focus on nutritionlabel.
/roadmap	Use for teaching, annotation, summaries, diagrams, or visual notes with focus on roadmap.
/comparisonmatrix	Use for teaching, annotation, summaries, diagrams, or visual notes with focus on comparisonmatrix.
/causechain	Use for teaching, annotation, summaries, diagrams, or visual notes with focus on causechain.
/processloop	Use for teaching, annotation, summaries, diagrams, or visual notes with focus on processloop.
/explainerboard	Use for teaching, annotation, summaries, diagrams, or visual notes with focus on explainerboard.
/mythfact	Use for teaching, annotation, summaries, diagrams, or visual notes with focus on mythfact.

Styles, Materials, and Art

For illustration, art styles, textures, craft feel, material swaps, and surface effects.

Good Prompt Patterns

- /watercolor: Create a cafe on a rainy evening in a soft watercolor style.
- /clayrender: Transform an app mascot into a soft 3D clay figure.
- /linocut: Create a graphic poster with a linocut feel for a local concert.

Representative Code Words

Code word	Function
/annotated sketch	Use for illustration style, craft feel, texture, material, or surface treatment with focus on annotated sketch.
/technical drawing	Use for illustration style, craft feel, texture, material, or surface treatment with focus on technical drawing.
/cutaway diagram	Use for illustration style, craft feel, texture, material, or surface treatment with focus on cutaway diagram.
/microverse	Use for illustration style, craft feel, texture, material, or surface treatment with focus on microverse.
/cloudworld	Use for illustration style, craft feel, texture, material, or surface treatment with focus on cloudworld.
/ancientworld	Use for illustration style, craft feel, texture, material, or surface treatment with focus on ancientworld.
/timewarp	Use for illustration style, craft feel, texture, material, or surface treatment with focus on timewarp.
/hologramworld	Use for illustration style, craft feel, texture, material, or surface treatment with focus on hologramworld.
/plushworld	Use for illustration style, craft feel, texture, material, or surface treatment with focus on plushworld.
/origamiworld	Use for illustration style, craft feel, texture, material, or surface treatment with focus on origamiworld.
/floatingisland	Use for illustration style, craft feel, texture, material, or surface treatment with focus on floatingisland.
/bottleworld	Use for illustration style, craft feel, texture, material, or surface treatment with focus on bottleworld.

Worlds, Environments, and Scenes

For placing subjects in new environments, building alternative worlds, stage designs, futures, and surreal settings.

Good Prompt Patterns

- /futurecity: Place a self-driving bus in a believable future city.
- /museumdisplay: Show a historical object as a curated museum exhibition.
- /weatherchange: Show the same house facade in sun, rain, snow, and fog.

Representative Code Words

Code word	Function
/miniatureworld	Use for placing the subject in a new scene, world, condition, or environment with focus on miniatureworld.
/giantobject	Use for placing the subject in a new scene, world, condition, or environment with focus on giantobject.
/museumdisplay	Use for placing the subject in a new scene, world, condition, or environment with focus on museumdisplay.
/laboratoryscene	Use for placing the subject in a new scene, world, condition, or environment with focus on laboratoryscene.
/factoryfloor	Use for placing the subject in a new scene, world, condition, or environment with focus on factoryfloor.
/desertscene	Use for placing the subject in a new scene, world, condition, or environment with focus on desertscene.
/spacehabitat	Use for placing the subject in a new scene, world, condition, or environment with focus on spacehabitat.
/futurecity	Use for placing the subject in a new scene, world, condition, or environment with focus on futurecity.
/naturefusion	Use for placing the subject in a new scene, world, condition, or environment with focus on naturefusion.
/seasonshift	Use for placing the subject in a new scene, world, condition, or environment with focus on seasonshift.
/daytonight	Use for placing the subject in a new scene, world, condition, or environment with focus on daytonight.
/weatherchange	Use for placing the subject in a new scene, world, condition, or environment with focus on weatherchange.

Comparison, Variants, and Decisions

For before/after views, versions, color choices, feature matrices, pros/cons, and visual recommendations.

Good Prompt Patterns

- /beforeafter: Show how a room changes before and after renovation.
- /featurematrix: Compare three subscription packages visually without making it text-heavy.
- /compatibilitycheck: Show which adapters work with a specific laptop model.

Representative Code Words

Code word	Function
/scalecomparison	Use for comparison, fit, variants, pros/cons, or recommendations with focus on scalecomparison.
/sizecomparison	Use for comparison, fit, variants, pros/cons, or recommendations with focus on sizecomparison.
/proportionmap	Use for comparison, fit, variants, pros/cons, or recommendations with focus on proportionmap.
/fitcheck	Use for comparison, fit, variants, pros/cons, or recommendations with focus on fitcheck.
/clearancecheck	Use for comparison, fit, variants, pros/cons, or recommendations with focus on clearancecheck.
/sidebyside	Use for comparison, fit, variants, pros/cons, or recommendations with focus on sidebyside.
/featurematrix	Use for comparison, fit, variants, pros/cons, or recommendations with focus on featurematrix.
/proscons	Use for comparison, fit, variants, pros/cons, or recommendations with focus on proscons.
/whichone	Use for comparison, fit, variants, pros/cons, or recommendations with focus on whichone.
/beforeafter	Use for comparison, fit, variants, pros/cons, or recommendations with focus on beforeafter.
/oldnew	Use for comparison, fit, variants, pros/cons, or recommendations with focus on oldnew.
/roomplacement	Use for comparison, fit, variants, pros/cons, or recommendations with focus on roomplacement.

Connectivity and Compatibility

For ports, cables, adapters, accessories, mounting, storage, and practical fit questions.

Good Prompt Patterns

- /portlabels: Label all ports on a laptop dock with short, readable labels.
- /cablerouting: Show the cleanest cable routing behind a desk.
- /adaptermatch: Show which adapter fits between camera, cable, and computer.

Representative Code Words

Code word	Function
/portlabels	Use for ports, cables, adapters, mounting, storage, or fit questions with focus on portlabels.
/cablerouting	Use for ports, cables, adapters, mounting, storage, or fit questions with focus on cablerouting.
/wiringpath	Use for ports, cables, adapters, mounting, storage, or fit questions with focus on wiringpath.
/connectionmap	Use for ports, cables, adapters, mounting, storage, or fit questions with focus on connectionmap.
/compatibilitycheck	Use for ports, cables, adapters, mounting, storage, or fit questions with focus on compatibilitycheck.
/accessoryfit	Use for ports, cables, adapters, mounting, storage, or fit questions with focus on accessoryfit.
/adaptermatch	Use for ports, cables, adapters, mounting, storage, or fit questions with focus on adaptermatch.
/mountingoptions	Use for ports, cables, adapters, mounting, storage, or fit questions with focus on mountingoptions.
/cableorganization	Use for ports, cables, adapters, mounting, storage, or fit questions with focus on cableorganization.
/storagefit	Use for ports, cables, adapters, mounting, storage, or fit questions with focus on storagefit.
/carrycase	Use for ports, cables, adapters, mounting, storage, or fit questions with focus on carrycase.
/spaceplan	Use for ports, cables, adapters, mounting, storage, or fit questions with focus on spaceplan.

Human, Animal, and Body

For anatomy, posture, gestures, behavior sequences, environmental relationships, and body-adjacent instructions.

Good Prompt Patterns

- /posturemap: Explain good sitting posture at a home office.
- /gestureguide: Show correct hand position for a musician holding an instrument.
- /organmap: Create a simplified educational image of the digestive system.

Representative Code Words

Code word	Function
/skeletonview	Use for anatomy, posture, gesture, behavior, or body-adjacent instruction with focus on skeletonview.
/cellularview	Use for anatomy, posture, gesture, behavior, or body-adjacent instruction with focus on cellularview.
/molecularview	Use for anatomy, posture, gesture, behavior, or body-adjacent instruction with focus on molecularview.
/musclemap	Use for anatomy, posture, gesture, behavior, or body-adjacent instruction with focus on musclemap.
/organmap	Use for anatomy, posture, gesture, behavior, or body-adjacent instruction with focus on organmap.
/posturemap	Use for anatomy, posture, gesture, behavior, or body-adjacent instruction with focus on posturemap.
/gestureguide	Use for anatomy, posture, gesture, behavior, or body-adjacent instruction with focus on gestureguide.
/behaviorsequence	Use for anatomy, posture, gesture, behavior, or body-adjacent instruction with focus on behaviorsequence.
/habitatview	Use for anatomy, posture, gesture, behavior, or body-adjacent instruction with focus on habitatview.
/interactionmap	Use for anatomy, posture, gesture, behavior, or body-adjacent instruction with focus on interactionmap.
/firstperson	Use for anatomy, posture, gesture, behavior, or body-adjacent instruction with focus on firstperson.
/handsinframe	Use for anatomy, posture, gesture, behavior, or body-adjacent instruction with focus on handsinframe.

Science, Sensory Views, and Inspection

For heat, sound, smell, fields, microscopy, radar, night vision, damage, and authenticity checks.

Good Prompt Patterns

- /thermalview: Show where a laptop gets warm under load.
- /soundwave: Add a sound wave around a speaker to show direction and intensity.
- /damagecheck: Mark scratches and cracks in a used product image.

Representative Code Words

Code word	Function
/thermalview	Show sensory, scientific, or inspection-like data with focus on thermalview.
/thermalvision	Show sensory, scientific, or inspection-like data with focus on thermalvision.
/infrared	Show sensory, scientific, or inspection-like data with focus on infrared.
/nightvision	Show sensory, scientific, or inspection-like data with focus on nightvision.
/ultrasound	Show sensory, scientific, or inspection-like data with focus on ultrasound.
/radarview	Show sensory, scientific, or inspection-like data with focus on radarview.
/sonar	Show sensory, scientific, or inspection-like data with focus on sonar.
/magneticfield	Show sensory, scientific, or inspection-like data with focus on magneticfield.
/spectrogram	Show sensory, scientific, or inspection-like data with focus on spectrogram.
/soundwave	Show sensory, scientific, or inspection-like data with focus on soundwave.
/smellmap	Show sensory, scientific, or inspection-like data with focus on smellmap.
/electricalfield	Show sensory, scientific, or inspection-like data with focus on electricalfield.

Workflows

Situation	Recommended flow
You have a product image	Start with /packshot, /shelfhero, or /unboxing. Add light/camera only after the main image works.
You need to explain an object	Start with /cutaway, /explodedview, /blueprint, or /howitworks. Ask for few, clear labels.
You are creating educational material	Start with /infographic, /whiteboard, /studygram, or /timeline. Specify audience and level.
You are testing style	Start with one style word, for example /watercolor, /linocut, or /clayrender. Lock the subject form.
You need decision support	Start with /featurematrix, /proscons, or /whichone. Specify criteria and desired recommendation.

Delivery Package

The accompanying Markdown folder contains the README, getting-started guide, prompt patterns, separate theme files, and a complete catalog of all 642 extracted code words. The README links both the Swedish source PDF and this English PDF.

Created 2026-09-03.
