

ChatGPT Visual Cheat Codes

Treat the code words as prompt shortcuts, not official ChatGPT commands. You get the best results when you combine a code word with a subject, purpose, target format, and any constraints.

- ChatGPT Visual Cheat Codes Guide - English PDF (files/chatgpt-visual-cheat-codes-guide-english.pdf)

Quick use

1. Choose a subject: product, sketch, screenshot, person, environment, or idea.
2. Choose one primary code word, such as /cutaway, /packshot, or /studygram.

3. Add the purpose: ad, instruction, comparison, educational explanation, or style test.
4. Add constraints: preserve face, proportions, colors, brand, aspect ratio, or readable text.
5. Iterate with clear feedback: what should be more precise, simpler, cleaner, more technical, or more emotional?

Recommended Prompt Formula

`[code word] + [subject] + [goal] + [format] + [important constraints]`

Example:

`/explodedview Create an educational visualization of an e-bike motor. Show the main components, short labels, clear arrows, and a clean technical style. Preserve the product proportions.`

Getting Started

What This Material Does

The source material shows how short code words can work as visual instructions. A code word can guide camera angle, presentation, diagram type, material, illustration, world, lighting, or educational format.

Three Levels of Use

- Simple: write only the code word after uploading an image.
- Directed: combine the code word with a concrete goal and format.
- Advanced: combine two to four compatible code words and add constraints.

Good Combinations

- Product ad: `/packshot + /rimlight + /storyad`
- Technical explanation: `/cutaway + /labels + /blueprint`
- Education: `/whiteboard + /keytakeaways + /diagram`
- Style test: `/watercolor + /goldenhour`
- Comparison: `/beforeafter + /featurematrix`

Risks to Avoid

- Too many code words at once often produce cluttered images.
- Code words that pull in different directions can compete, for example `/minimal` and `/crunch explosion`.
- If identity, product shape, or colors must be preserved, say so explicitly.
- Text in generated images can be wrong; ask for short labels instead and always check the result.

Prompt Patterns

1. Image to Ad

/packshot Turn [product] into a clean studio image for [channel]. Emphasize [benefit], preserve [brand traits], use [format].

2. Image to Technical Explanation

/cutaway Show the inside of [object]. Label [important parts], use short labels, arrows, and a clean technical style.

3. Idea to Educational Overview

/infographic Explain [topic] for [audience]. Divide it into [number] blocks with headings, simple icons, and a clear reading order.

4. Product to Campaign Series

/socialcarousel Create [number] connected images for [campaign]. Each image should have a clear message and the same visual system.

5. Scene to Alternative World

/futurecity Place [subject] in a believable future environment. Preserve the subject's form, but update surroundings, lighting, and details.

6. Comparison and Decision

/featurematrix Compare [options] across [criteria]. Make the recommendation visually easy to see without much text.

Advertising and Campaign

For ads, campaign visuals, launches, and social formats where the image should sell, stop the scroll, or feel premium.

When This Group Fits

Use it when you want to guide the image's practical role: selling, explaining, comparing, instructing, styling, or transforming the subject.

Examples

- /packshot: Create a clean studio image of new coffee packaging for an e-commerce ad.
- /storyad + /scroll stopper: Create a vertical campaign image for a fitness app that feels clear on mobile.
- /luxuryedition: Give an ordinary water bottle a premium look for a limited launch.

Code Words in This Group

Code word	Source/category	Short function
/packshot	Advertising And Campaign	Create a clean studio product photo for an advertisement.
/luxuryedition	Advertising And Campaign	Turn the subject into a refined luxury edition.
/subwayad	Advertising And Campaign	Place the subject in a realistic subway advertisement.
/storefrontmockup	Advertising And Campaign	Show the campaign across a realistic storefront.
/shelfhero	Advertising And Campaign	Make the product stand out as the hero on a retail shelf.
/launchcampaign	Advertising And Campaign	Build a bold launch visual around the subject.
/productposter	Advertising And Campaign	Turn the subject into a clean commercial product poster.
/socialcarousel	Advertising And Campaign	Arrange the idea as a coordinated social carousel.
/storyad	Advertising And Campaign	Format the subject as a vertical social story advertisement.
/thumbnail	Advertising And Campaign	Create a bold thumbnail with one clear focal point.
/billboardwrap	Advertising And Campaign	Wrap the subject across a realistic outdoor billboard.
/windowdisplay	Advertising And Campaign	Stage the product inside a premium shop window.
/popdisplay	Advertising And Campaign	Create a compact point-of-purchase retail display.
/limitededition	Advertising And Campaign	Restyle the subject as a special limited edition.
/giftset	Advertising And Campaign	Arrange the product as a polished gift set.
/collectorbox	Advertising And Campaign	Present the subject in a premium collector box.
/luxury edition	Recent Product And Campaign Codes	Turn the subject into a refined luxury edition.
/exploded view	Recent Product And Campaign Codes	Separate the subject into clearly aligned floating parts.
/motion freeze	Recent Product And Campaign Codes	Freeze fast motion, debris, and particles in midair.
/gradient studio	Recent Product And Campaign Codes	Place the subject in a polished gradient studio.

Code word	Source/category	Short function
/billboard	Recent Product And Campaign Codes	Turn the subject into a monumental outdoor billboard.
/black hole	Recent Product And Campaign Codes	Pull the subject into a cinematic black-hole scene.
/landing page	Recent Product And Campaign Codes	Present the subject as a premium landing-page hero.
/sunbeam	Recent Product And Campaign Codes	Shape the subject with warm directional sunbeams.
/energy field	Recent Product And Campaign Codes	Surround the subject with a powerful glowing energy field.
/iridescent	Recent Product And Campaign Codes	Give the subject a refined color-shifting iridescent finish.
/floating 3d	Recent Product And Campaign Codes	Present the subject as a polished floating 3D object.
/street giant	Recent Product And Campaign Codes	Scale the subject into a believable city-sized giant.
/impact	Recent Product And Campaign Codes	Show the subject at the center of a powerful collision.
/rim light	Recent Product And Campaign Codes	Sculpt the subject with a bright cinematic rim light.
/building wrap	Recent Product And Campaign Codes	Wrap a real building with the subject's branded design.
/cereal avalanche	Product-Specific Creative Directions	Send the subject through a dramatic cereal avalanche.
/breakfast orbit	Product-Specific Creative Directions	Arrange the subject in a dynamic breakfast orbit.
/milk vortex	Product-Specific Creative Directions	Pull the subject into a dramatic milk vortex.
/crunch galaxy	Product-Specific Creative Directions	Build a cinematic crunch galaxy around the subject.
/tiger spotlight	Product-Specific Creative Directions	Stage the subject under a bold tiger spotlight.
/golden cascade	Product-Specific Creative Directions	Flow a dramatic golden cascade around the subject.
/cola eclipse	Product-Specific Creative Directions	Turn the subject into a striking cola eclipse.
/fizz halo	Product-Specific Creative Directions	Surround the subject with a luminous fizz halo.
/can canyon	Product-Specific Creative Directions	Scale the subject into a monumental can canyon.
/bubble portal	Product-Specific Creative Directions	Reveal the subject through a themed bubble portal.
/ice monolith	Product-Specific Creative Directions	Transform the subject into a monumental ice monolith.
/neon refresh	Product-Specific Creative Directions	Give the subject a vibrant neon refresh treatment.
/enamel glow	Product-Specific Creative Directions	Light the subject with a radiant enamel glow.
/mint tunnel	Product-Specific Creative Directions	Place the subject inside a cinematic mint tunnel.
/crystal clean	Product-Specific Creative Directions	Give the subject a precise crystal clean finish.
/freshness beam	Product-Specific Creative Directions	Project a focused freshness beam from the subject.
/hygiene lab	Product-Specific Creative Directions	Place the subject inside a futuristic hygiene lab.
/smile prism	Product-Specific Creative Directions	Rebuild the subject as a faceted smile prism.
/citrus sunrise	Product-Specific Creative Directions	Light the subject with a radiant citrus sunrise.
/orange cascade	Product-Specific Creative Directions	Flow a dramatic orange cascade around the subject.
/juice halo	Product-Specific Creative Directions	Surround the subject with a luminous juice halo.
/vitamin glow	Product-Specific Creative Directions	Light the subject with a radiant vitamin glow.
/orchard portal	Product-Specific Creative Directions	Reveal the subject through a themed orchard portal.

Code word	Source/category	Short function
/pulp prism	Product-Specific Creative Directions	Rebuild the subject as a faceted pulp prism.
/mint meteor	Product-Specific Creative Directions	Create a bold mint meteor transformation around the subject.
/orange orbit	Product-Specific Creative Directions	Arrange the subject in a dynamic orange orbit.
/pocket portal	Product-Specific Creative Directions	Reveal the subject through a themed pocket portal.
/candy matrix	Product-Specific Creative Directions	Arrange the subject inside a structured candy matrix.
/fresh burst	Product-Specific Creative Directions	Place the subject at the center of a fresh burst.
/micro factory	Product-Specific Creative Directions	Turn the subject into a working micro factory.
/onion vortex	Product-Specific Creative Directions	Pull the subject into a dramatic onion vortex.
/chip canyon	Product-Specific Creative Directions	Scale the subject into a monumental chip canyon.
/crisp halo	Product-Specific Creative Directions	Surround the subject with a luminous crisp halo.
/seasoning storm	Product-Specific Creative Directions	Surround the subject with a cinematic seasoning storm.
/crunch temple	Product-Specific Creative Directions	Transform the subject into a grand crunch temple.
/flavor field	Product-Specific Creative Directions	Build a living flavor field around the subject.
/cocoa cosmos	Product-Specific Creative Directions	Build a cinematic cocoa cosmos around the subject.
/milk planet	Product-Specific Creative Directions	Turn the subject into a stylized milk planet.
/cereal city	Product-Specific Creative Directions	Rebuild the subject as a complete cereal city.
/breakfast bloom	Product-Specific Creative Directions	Make the subject open into a colorful breakfast bloom.
/chocolate orbit	Product-Specific Creative Directions	Arrange the subject in a dynamic chocolate orbit.
/monkey spotlight	Product-Specific Creative Directions	Stage the subject under a bold monkey spotlight.
/midnight aura	Product-Specific Creative Directions	Surround the subject with a refined midnight aura.
/scent vortex	Product-Specific Creative Directions	Pull the subject into a dramatic scent vortex.
/glass monolith	Product-Specific Creative Directions	Transform the subject into a monumental glass monolith.
/desert noir	Product-Specific Creative Directions	Restyle the subject with a dark desert noir mood.
/fragrance halo	Product-Specific Creative Directions	Surround the subject with a luminous fragrance halo.
/blue eclipse	Product-Specific Creative Directions	Turn the subject into a striking blue eclipse.
/surprise reveal	Product-Specific Creative Directions	Open the subject in a dramatic surprise reveal.
/toy portal	Product-Specific Creative Directions	Reveal the subject through a themed toy portal.
/chocolate shell	Product-Specific Creative Directions	Rebuild the subject with a layered chocolate shell.
/foil cosmos	Product-Specific Creative Directions	Build a cinematic foil cosmos around the subject.
/egg monolith	Product-Specific Creative Directions	Transform the subject into a monumental egg monolith.
/wonder chamber	Product-Specific Creative Directions	Place the subject inside an imaginative wonder chamber.
/sole blueprint	Product-Specific Creative Directions	Explain the subject with a precise sole blueprint.
/sneaker orbit	Product-Specific Creative Directions	Arrange the subject in a dynamic sneaker orbit.
/lace motion	Product-Specific Creative Directions	Capture the subject in elegant lace motion.

Code word	Source/category	Short function
/street altar	Product-Specific Creative Directions	Stage the subject as a ceremonial street altar.
/outsole xray	Product-Specific Creative Directions	Reveal hidden construction with a luminous outsole xray.
/color shock	Product-Specific Creative Directions	Create a bold high-energy color shock treatment.
/pourshot	New Product And Campaign Shortcuts	Freeze a dramatic liquid pour around the subject.
/liquidslice	New Product And Campaign Shortcuts	Slice through a liquid-filled subject to reveal fluid layers.
/evolution	New Product And Campaign Shortcuts	Show the subject transforming through clear evolutionary stages.
/tinyfactory	New Product And Campaign Shortcuts	Turn the subject into a miniature working factory.
/tinycrew	New Product And Campaign Shortcuts	Add a coordinated tiny crew working around the subject.
/materialize	New Product And Campaign Shortcuts	Show the subject assembling from particles, ingredients, or light.
/dematerialize	New Product And Campaign Shortcuts	Show the subject dissolving into particles, fragments, or light.
/motionfreeze	New Product And Campaign Shortcuts	Freeze fast action, flying pieces, and particles in midair.
/Hero Pedestal	New Product And Campaign Shortcuts	Stage the product on a bold premium hero pedestal.
/Obsidian Luxe	New Product And Campaign Shortcuts	Create a dark obsidian luxury product environment.
/Diamond Dust	New Product And Campaign Shortcuts	Surround the subject with sparkling crystalline dust.
/Reality Tear	New Product And Campaign Shortcuts	Reveal the subject through a dramatic tear in reality.
/Plaza Giant	New Product And Campaign Shortcuts	Place a giant version of the subject in a public plaza.
/Particle Storm	New Product And Campaign Shortcuts	Whip particles and fragments around the subject in a storm.
/Tiny Workers	New Product And Campaign Shortcuts	Add miniature workers actively building or servicing the subject.
/Mini Factory	New Product And Campaign Shortcuts	Turn the product scene into a compact miniature factory.
/Dream Physics	New Product And Campaign Shortcuts	Apply surreal but polished dreamlike physical behavior.
/Portal Emergence + Reality Tear	New Product And Campaign Shortcuts	Make the subject emerge through a portal and torn reality.
/Vortex Pull	New Product And Campaign Shortcuts	Pull ingredients, pieces, or particles into a central vortex.
/Attention Magnet	New Product And Campaign Shortcuts	Build an exaggerated focal composition that commands attention.
/Luxury Vault	New Product And Campaign Shortcuts	Display the product inside a secure high-end luxury vault.
/Billboard Bloom	New Product And Campaign Shortcuts	Make a billboard scene burst outward with dimensional product elements.
/Retail Shrine	New Product And Campaign Shortcuts	Elevate the product in a dramatic shrine-like retail display.
/Ember Glow	New Product And Campaign Shortcuts	Light the subject with warm embers and glowing atmospheric particles.
/Mist Chamber	New Product And Campaign Shortcuts	Place the subject inside a cinematic chamber of controlled mist.
/manufacturing steps	New Product And Campaign Shortcuts	Show the product manufacturing process in clear visual stages.
/busstopad	New Product And Campaign Shortcuts	Turn the subject into a striking bus-stop advertising display.
/crunch explosion	New Product And Campaign Shortcuts	Explode crunchy pieces and seasoning outward around the product.
/crunch storm	New Product And Campaign Shortcuts	Create a turbulent storm of snack pieces and crunchy fragments.
/herb cloud	New Product And Campaign Shortcuts	Surround the food with a fresh aromatic cloud of herbs.

Code word	Source/category	Short function
/salt crystals	New Product And Campaign Shortcuts	Magnify sparkling salt crystals across the food and scene.
/charred glow	New Product And Campaign Shortcuts	Add smoky char, toasted edges, and a warm firelit glow.
/golden dunes	New Product And Campaign Shortcuts	Turn golden snack texture into sweeping edible dunes.
/shelf stopper	New Product And Campaign Shortcuts	Create a retail visual engineered to stop shoppers at the shelf.
/shock visual	New Product And Campaign Shortcuts	Use surprising scale, contrast, or action for immediate impact.
/click magnet	New Product And Campaign Shortcuts	Create a bold digital-ad visual designed to attract clicks.
/feed breaker	New Product And Campaign Shortcuts	Break the visual rhythm of a social feed with dramatic composition.
/shelf dominance	New Product And Campaign Shortcuts	Make the product visually dominate a competitive retail shelf.
/campaign punch	New Product And Campaign Shortcuts	Give the product a decisive high-impact campaign treatment.
/brand thunder	New Product And Campaign Shortcuts	Amplify brand presence with explosive cinematic energy.
/campaign glow	New Product And Campaign Shortcuts	Create a polished luminous hero look for a campaign.
/deluxe campaign	New Product And Campaign Shortcuts	Elevate the product into a premium deluxe advertising campaign.
/conversion ad	New Product And Campaign Shortcuts	Compose a clear product-focused ad built to drive action.
/craving trigger	New Product And Campaign Shortcuts	Use texture, color, and close-up detail to trigger appetite.
/must have	New Product And Campaign Shortcuts	Frame the product as the irresistible item everyone wants.
/urge builder	New Product And Campaign Shortcuts	Build visual anticipation and desire around the product.
/crave appeal	New Product And Campaign Shortcuts	Maximize mouthwatering texture, warmth, and snack appeal.

Retail and Product Presentation

For stores, shelves, displays, packaging, unboxing, product families, and practical product layout.

When This Group Fits

Use it when you want to guide the image's practical role: selling, explaining, comparing, instructing, styling, or transforming the subject.

Examples

- /shelfcomparison: Compare our product against three competitors on a clear retail shelf.
- /unboxing: Show everything included in the box for a premium headphone.
- /inhandscale: Show how large the product is by placing it in a hand.

Code Words in This Group

Code word	Source/category	Short function
/openboxlayout	Retail And Product Presentation	Arrange the opened package and contents neatly.
/lifestylehero	Retail And Product Presentation	Show the product as the focus of a realistic lifestyle scene.
/ecommercegrid	Retail And Product Presentation	Create matching product views for an online store grid.
/packagingdieline	Retail And Product Presentation	Lay the package artwork onto a clear flat dieline.
/shelfcomparison	Retail And Product Presentation	Compare competing products together on one shelf.
/brandcampaign	Retail And Product Presentation	Build a cohesive branded campaign around the subject.
/retailisland	Retail And Product Presentation	Stage the product on a freestanding retail island.
/counterdisplay	Retail And Product Presentation	Place the product in a compact checkout display.
/samplekit	Retail And Product Presentation	Arrange the product as an organized sample kit.
/productfamily	Retail And Product Presentation	Show related products as one coordinated family.
/refillconcept	Retail And Product Presentation	Visualize a practical refillable version of the product.
/travelkit	Retail And Product Presentation	Package the product as a compact travel kit.
/homeuse	Everyday Context And Product Use	Show the item being used at home.
/deskuse	Everyday Context And Product Use	Show a practical workstation setup.
/kitchenuse	Everyday Context And Product Use	Show a realistic kitchen application.
/traveluse	Everyday Context And Product Use	Show how the item works while traveling.
/inhandscale	Everyday Context And Product Use	Show the real size in a person's hand.
/beginnerfriendly	Everyday Context And Product Use	Make the explanation simple and approachable.
/lefthanded	Everyday Context And Product Use	Show the item operated left-handed.
/storageplan	Everyday Context And Product Use	Show a practical storage arrangement.

Code word	Source/category	Short function
/cablemanagement	Everyday Context And Product Use	Organize cables neatly around the item.
/drawerorganization	Everyday Context And Product Use	Arrange small items inside a drawer.
/accessorylayout	Everyday Context And Product Use	Arrange the main item with its accessories.

Camera, Lighting, and Composition

For guiding the image's camera angle, optics, lighting, focus, motion, and cinematic feel.

When This Group Fits

Use it when you want to guide the image's practical role: selling, explaining, comparing, instructing, styling, or transforming the subject.

Examples

- `/goldenhour` + `/wideangle`: Create a warm travel image of a city street in low sun with a clear sense of place.
- `/rimlight`: Separate the person from the background with a clear rim of light.
- `/topdown`: Show the desk tools straight from above for a clean guide image.

Code Words in This Group

Code word	Source/category	Short function
<code>/splitdiopter</code>	Camera And Lighting Directions	Keep a near subject and distant subject sharply focused.
<code>/dutchangle</code>	Camera And Lighting Directions	Tilt the frame for a tense cinematic perspective.
<code>/droneview</code>	Camera And Lighting Directions	Show the scene from a high aerial camera view.
<code>/telephoto</code>	Camera And Lighting Directions	Compress the background with a long-lens camera look.
<code>/wideangle</code>	Camera And Lighting Directions	Expand the scene with a dramatic wide-angle view.
<code>/shallowfocus</code>	Camera And Lighting Directions	Keep the subject sharp against a soft background.
<code>/deepfocus</code>	Camera And Lighting Directions	Keep foreground and background details clearly focused.
<code>/studioflash</code>	Camera And Lighting Directions	Light the subject with crisp professional studio flash.
<code>/windowlight</code>	Camera And Lighting Directions	Use soft natural light from a nearby window.
<code>/backlit</code>	Camera And Lighting Directions	Place a bright light behind the subject for separation.
<code>/colorgel</code>	Camera And Lighting Directions	Light the scene with coordinated colored gels.
<code>/spotlight</code>	Camera And Lighting Directions	Isolate the subject under one focused beam of light.
<code>/foglight</code>	Camera And Lighting Directions	Cut visible light beams through atmospheric fog.
<code>/frozenmotion</code>	Camera And Lighting Directions	Freeze fast action with crisp detail.
<code>/zoomblur</code>	Camera And Lighting Directions	Pull the background into energetic radial motion.
<code>/symmetryshot</code>	Camera And Lighting Directions	Center the subject in a precise symmetrical composition.
<code>/foregroundframe</code>	Camera And Lighting Directions	Frame the subject with objects in the foreground.
<code>/cinematic</code>	Camera And Perspective	Create a dramatic movie-frame composition.
<code>/filmnoir</code>	Camera And Perspective	Use a high-contrast black-and-white look.
<code>/vintagefilm</code>	Camera And Perspective	Create an aged analog film photograph.

Code word	Source/category	Short function
/polaroid	Camera And Perspective	Use an instant-camera print aesthetic.
/35mm	Camera And Perspective	Create a classic 35mm photograph.
/fisheye	Camera And Perspective	Use an extreme wide-angle perspective.
/tiltshift	Camera And Perspective	Make the scene look miniature.
/overhead	Camera And Perspective	Show the subject directly from above.
/lowangle	Camera And Perspective	Make the subject look powerful from below.
/topdown	Camera And Perspective	Create a flat bird's-eye view.
/panorama	Camera And Perspective	Expand the scene into a wide view.
/wormseye	Camera And Perspective	Use an extreme ground-level perspective.
/goldenhour	Light And Optical Behavior	Use warm sunrise or sunset light.
/bluehour	Light And Optical Behavior	Use cool twilight lighting.
/neonlight	Light And Optical Behavior	Use colorful neon illumination.
/rimlight	Light And Optical Behavior	Create a glowing outline around the subject.
/chiaroscuro	Light And Optical Behavior	Use strong light and shadow contrast.
/volumetric	Light And Optical Behavior	Show visible rays through the air.
/softbox	Light And Optical Behavior	Use clean, even studio lighting.
/hardflash	Light And Optical Behavior	Use sharp direct flash lighting.
/bokeh	Light And Optical Behavior	Turn background lights into soft circles.
/lensflare	Light And Optical Behavior	Add bright camera flare and streaks.
/prismatic	Light And Optical Behavior	Create rainbow refraction through light or glass.
/longexposure	Motion, Time, And Change	Show light trails and smooth movement.
/lightpainting	Motion, Time, And Change	Draw glowing paths through the scene.
/motionblur	Motion, Time, And Change	Emphasize movement with directional blur.
/timelapse	Motion, Time, And Change	Compress a long process into one image.
/slowmotion	Motion, Time, And Change	Make movement look suspended.
/stopmotion	Motion, Time, And Change	Use a handmade frame-by-frame appearance.
/motiontrail	Motion, Time, And Change	Leave trails behind moving elements.
/speedlines	Motion, Time, And Change	Add graphic action streaks.
/freezeframe	Motion, Time, And Change	Capture a dramatic instant in motion.
/timeline	Motion, Time, And Change	Show development across multiple stages.
/transformation	Motion, Time, And Change	Show one form becoming another.
/lifecycle	Motion, Time, And Change	Show creation, use, aging, and end of life.

Technical Reveals and Diagrams

For cutaways, exploded views, blueprints, schematics, parts, materials, flows, and mechanical explanations.

When This Group Fits

Use it when you want to guide the image's practical role: selling, explaining, comparing, instructing, styling, or transforming the subject.

Examples

- /explodedview: Separate the components of an e-bike motor and label the main parts.
- /blueprint + /dimensions: Create a technical drawing of a modular desk with measurements.
- /mechanismflow: Show how force transfers through a lock when the key turns.

Code Words in This Group

Code word	Source/category	Short function
/parts map	Latest Technical Explanation Codes	Arrange and label the subject's main parts in one clear map.
/exploded blueprint	Latest Technical Explanation Codes	Combine an exploded view with a technical blueprint.
/function flow	Latest Technical Explanation Codes	Show inputs, internal stages, and outputs with arrows.
/assembly steps	Latest Technical Explanation Codes	Build the subject through clear numbered assembly stages.
/material layers	Latest Technical Explanation Codes	Peel apart and label the subject's material layers.
/component labels	Latest Technical Explanation Codes	Connect each important component to a concise label.
/process sequence	Latest Technical Explanation Codes	Show the subject's process as ordered visual stages.
/mechanism map	Latest Technical Explanation Codes	Map the hidden mechanism and its cause-and-effect links.
/motion diagram	Latest Technical Explanation Codes	Explain movement with ghosted positions and trajectory arrows.
/construction logic	Latest Technical Explanation Codes	Reveal the joints, seams, supports, and structural logic.
/360view	Codes Tested And Used	Show the subject from every side in one clear visual.
/anatomy	Codes Tested And Used	Reveal and label the subject's major internal structures.
/cutaway	Codes Tested And Used	Remove part of the exterior to reveal what is inside.
/layers	Codes Tested And Used	Separate the subject into stacked construction layers.
/xray	Codes Tested And Used	See internal parts through the exterior surface.
/explodedview	Codes Tested And Used	Spread components apart while preserving their positions.
/microscopic	Codes Tested And Used	Zoom into a convincing microscopic level of detail.
/blueprint	Codes Tested And Used	Convert the subject into a technical blueprint drawing.
/handwritten	Codes Tested And Used	Explain the subject with natural handwritten notes.
/tinyplanet	Codes Tested And Used	Wrap the scene into a spherical tiny-planet view.

Code word	Source/category	Short function
/3dbillboard	Codes Tested And Used	Turn the subject into an illusion-breaking 3D billboard.
/metaad	Codes Tested And Used	Create a polished Meta-style social advertisement.
/magazinecover	Codes Tested And Used	Turn the subject into a premium magazine cover.
/floating3d	Codes Tested And Used	Present the subject as a clean floating 3D object.
/mechanismview	Codes Tested And Used	Reveal the mechanism and how its moving parts connect.
/factoryline	Codes Tested And Used	Show how the subject moves through a factory line.
/qualitycheck	Codes Tested And Used	Mark inspection points and common quality defects.
/dimensions	Codes Tested And Used	Add clear, practical dimensions around the subject.
/redesign	Codes Tested And Used	Reimagine the subject with a smarter updated design.
/futuristic	Codes Tested And Used	Transform the subject into a believable future version.
/premiumshowcase	Codes Tested And Used	Stage the subject like a premium product launch.
/zoom ladder	Codes Tested And Used	Move from the full subject through progressively closer detail levels.
/shell removal	Codes Tested And Used	Remove the outer shell while keeping the internals assembled.
/working principle	Codes Tested And Used	Explain the core operating principle in one visual.
/house skeleton	Codes Tested And Used	Reveal a building's frame, structure, and hidden systems.
/body systems	Codes Tested And Used	Map the body's major systems and how they connect.
/nutrition map	Codes Tested And Used	Map nutrients, benefits, and their sources visually.
/studio reconstruction	Codes Tested And Used	Reconstruct the scene as a polished studio setup.
/world inside	Codes Tested And Used	Reveal an imaginative miniature world inside the subject.
/visual dissection	Codes Tested And Used	Dissect the subject into labeled visual sections.
/scroll stopper	Codes Tested And Used	Create a bold, high-contrast social visual that stops scrolling.
/elite object	Codes Tested And Used	Elevate the subject into an exclusive luxury object.
/rich visual	Codes Tested And Used	Add depth, detail, and premium visual richness.
/visual learning whiteboard	Codes Tested And Used	Teach the subject with a clear whiteboard-style breakdown.
/ingredient explosion	Codes Tested And Used	Separate ingredients around the finished result.
/compositionmap	Codes Tested And Used	Map the main compositional zones, balance, and focal points.
/timelineboard	Codes Tested And Used	Arrange key moments as a visual timeline board.
/shotsetup	Codes Tested And Used	Diagram the camera, lighting, subject, and background setup.
/labeled piecebypiece	Codes Tested And Used	Separate and label every important piece one by one.
/internalmap	Engineering And Mechanism	Expose major internal components in their actual locations.
/shelloff	Engineering And Mechanism	Remove the exterior shell while keeping everything else assembled.
/halfsection	Engineering And Mechanism	Show one half normal and one half cut open.
/crossection	Engineering And Mechanism	Show a clean sliced-through view of internal construction.

Code word	Source/category	Short function
/componenttree	Engineering And Mechanism	Map object to assemblies, subassemblies, and components.
/assemblyorder	Engineering And Mechanism	Arrange parts in the order they are assembled.
/fastenermap	Engineering And Mechanism	Highlight screws, bolts, clips, welds, adhesives, and joints.
/materialmap	Engineering And Mechanism	Label every material used in the subject.
/stressmap	Engineering And Mechanism	Visualize high, medium, and low structural stress areas.
/loadpath	Engineering And Mechanism	Show how forces travel through the object.
/mechanismflow	Engineering And Mechanism	Use arrows to show how mechanical movement transfers.
/powerflow	Engineering And Mechanism	Show the energy path from power source to final output.
/signalflow	Engineering And Mechanism	Map sensors to processor to actuator or output.
/fluidflow	Engineering And Mechanism	Show liquids moving through the system.
/airflow	Engineering And Mechanism	Visualize intake, exhaust, cooling, ventilation, or aerodynamics.
/motionpath	Engineering And Mechanism	Show movement ranges, rotations, and trajectories.
/cycleview	Engineering And Mechanism	Break one full operating cycle into stages.
/causeeffect	Engineering And Mechanism	Connect each input or action to its resulting effect.
/rawtofinal	Engineering And Mechanism	Show raw materials through to the finished product.
/manufacturingsteps	Engineering And Mechanism	Show the factory process in four to six major stages.
/toolingview	Engineering And Mechanism	Show the tools and machinery used to make the product.
/moldview	Engineering And Mechanism	Show how the object sits inside its manufacturing mold.
/supplychain	Engineering And Mechanism	Map materials, factories, assembly, logistics, and customer.
/scalecompare	Engineering And Mechanism	Place the subject beside familiar objects for intuitive scale.
/sizelevels	Engineering And Mechanism	Show subject, component, microscopic structure, and molecular level.
/thenandnow	Engineering And Mechanism	Compare an older generation with the current design.
/goodvsbad	Engineering And Mechanism	Compare correct use or construction with a defective example.
/failuremode	Engineering And Mechanism	Show where and how the object commonly fails.
/designlogic	Engineering And Mechanism	Label features and explain why each design choice exists.
/hero	Creative And Product Directions	Create a clean hero image with the subject as the focal point.
/macro	Creative And Product Directions	Show extreme close-up texture and fine detail.
/materials	Creative And Product Directions	Identify and showcase the subject's key materials.
/texture	Creative And Product Directions	Emphasize surface texture, grain, and tactile detail.
/scale	Creative And Product Directions	Communicate the subject's real-world size clearly.
/silhouette	Creative And Product Directions	Reduce the subject to a bold recognizable silhouette.
/outline	Creative And Product Directions	Trace the subject with a clean explanatory outline.
/wireframe	Creative And Product Directions	Reveal the underlying geometric wireframe.
/transparent	Creative And Product Directions	Make the exterior transparent while preserving form.

Code word	Source/category	Short function
/ghosted	Creative And Product Directions	Show hidden parts as faint ghosted structures.
/sectioned	Creative And Product Directions	Divide the subject into clearly labeled sections.
/unwrapped	Creative And Product Directions	Lay surfaces or packaging out as an unwrapped flat view.
/packaging	Creative And Product Directions	Place the subject into polished retail packaging.
/boxed	Creative And Product Directions	Present the subject neatly inside its box.
/unboxing	Creative And Product Directions	Arrange the product and contents as an unboxing scene.
/contents	Creative And Product Directions	Show everything included with the main item.
/accessories	Creative And Product Directions	Arrange compatible accessories around the subject.
/variants	Creative And Product Directions	Compare multiple product or design variants.
/colorways	Creative And Product Directions	Show the subject in several coordinated color options.
/finish	Creative And Product Directions	Compare surface finishes such as matte, gloss, metal, or soft-touch.
/premium	Creative And Product Directions	Elevate the subject with restrained premium styling.
/minimal	Creative And Product Directions	Simplify the composition into a clean minimal presentation.
/industrial	Creative And Product Directions	Give the subject a robust industrial design language.
/retro	Creative And Product Directions	Restyle the subject with a coherent retro design language.
/prototype	Creative And Product Directions	Present the subject as a believable working prototype.
/concept	Creative And Product Directions	Turn the subject into a polished concept visualization.
/upgrade	Creative And Product Directions	Show a clear improved version of the subject.
/ergonomics	Creative And Product Directions	Explain how the subject fits the body and supports use.
/grip	Creative And Product Directions	Focus on hand placement, grip surfaces, and comfort.
/controls	Creative And Product Directions	Label controls and connect each one to its function.
/interface	Creative And Product Directions	Explain the interface and its main interaction zones.
/workflow	Creative And Product Directions	Map the practical workflow from start to finish.
/usage	Creative And Product Directions	Demonstrate how the subject is used in context.
/setup	Creative And Product Directions	Show the correct setup and placement.
/installation	Creative And Product Directions	Show where and how the subject is installed.
/maintenance	Creative And Product Directions	Mark routine maintenance tasks and access points.
/cleaning	Creative And Product Directions	Show the correct cleaning zones and method.
/repair	Creative And Product Directions	Reveal the fault and the repair path.
/replaceable	Creative And Product Directions	Identify parts designed to be replaced.
/wearpoints	Creative And Product Directions	Highlight areas most likely to wear out.
/weakpoints	Creative And Product Directions	Identify likely weak points and failure risks.
/durability	Creative And Product Directions	Visualize ruggedness, protection, and expected wear.
/weatherproof	Creative And Product Directions	Show protection from rain, dust, heat, and cold.

Code word	Source/category	Short function
/thermal	Creative And Product Directions	Map heat generation, transfer, and hot zones.
/cooling	Creative And Product Directions	Explain airflow, cooling paths, and heat removal.
/acoustic	Creative And Product Directions	Visualize sound sources, direction, and damping.
/pressure	Creative And Product Directions	Map high- and low-pressure areas.
/friction	Creative And Product Directions	Show contact points and friction zones.
/tolerance	Creative And Product Directions	Visualize fit, clearance, and manufacturing tolerances.
/joints	Creative And Product Directions	Reveal the subject's joints and connection methods.
/gears	Creative And Product Directions	Expose gears and show how they transfer motion.
/electronics	Creative And Product Directions	Reveal the main electronic modules and wiring.
/sensors	Creative And Product Directions	Map sensors, detection zones, and signals.
/battery	Creative And Product Directions	Show battery location, access, and power path.
/connectivity	Creative And Product Directions	Map wireless and wired connections.
/comparison	Creative And Product Directions	Compare subjects or versions in matching views.
/benchmark	Creative And Product Directions	Compare performance against a clear reference or competitor.
/insideview	Core Visual Reveals	Show the interior without fully destroying the exterior.
/hiddenparts	Core Visual Reveals	Reveal concealed components or structures.
/seethrough	Core Visual Reveals	Make selected surfaces transparent.
/peelback	Core Visual Reveals	Pull the outer surface aside like a flap.
/schematic	Technical Drafting	Simplify the subject into a functional diagram.
/technicaldrawing	Technical Drafting	Show accurate front, side, and top views.
/isometric	Technical Drafting	Create an angled engineering-style view.
/cadview	Technical Drafting	Present the subject like a CAD model.
/dimensionview	Technical Drafting	Add clear measurements around the subject.
/dimensionlines	Technical Drafting	Draw technical measurement lines between points.
/scalegrid	Technical Drafting	Use a grid to communicate size and proportion.
/vanishingpoint	Technical Drafting	Show the construction of perspective lines.
/contourmap	Technical Drafting	Show height, depth, or surface levels with lines.
/howitworks	Mechanism And Function	Explain the basic function visually.
/mechanism	Mechanism And Function	Focus on gears, hinges, levers, or moving parts.
/energyflow	Mechanism And Function	Show how power moves through the subject.
/motionflow	Mechanism And Function	Show how parts move during operation.
/inputoutput	Mechanism And Function	Show what enters the system and what comes out.
/forceanalysis	Mechanism And Function	Show pressure, force, weight, or stress.
/flowdiagram	Mechanism And Function	Show the movement of air, water, blood, or data.

Code word	Source/category	Short function
/rangeofmotion	Mechanism And Function	Show how far joints or parts can move.
/controlmap	Mechanism And Function	Connect each control to its function.
/buttonmap	Mechanism And Function	Label buttons and explain what they do.
/portmap	Mechanism And Function	Identify ports, sockets, and connection points.

Process, Instruction, and Safety

For step-by-step guides, maintenance, troubleshooting, safety zones, controls, and workflows.

When This Group Fits

Use it when you want to guide the image's practical role: selling, explaining, comparing, instructing, styling, or transforming the subject.

Examples

- /assemblysequence: Show how a chair is assembled in six clear steps.
- /hazardmap: Mark risk zones on a machine before servicing.
- /quickreference: Create a compact reference card for how to clean a coffee machine.

Code Words in This Group

Code word	Source/category	Short function
/assembly	Process And Instruction	Show how separate parts become one object.
/assemblysequence	Process And Instruction	Show assembly in numbered stages.
/disassembly	Process And Instruction	Show how to take the subject apart.
/stepsequence	Process And Instruction	Present a task frame by frame.
/instructioncard	Process And Instruction	Create a compact visual instruction card.
/manualpage	Process And Instruction	Turn the subject into a manual-style page.
/quickreference	Process And Instruction	Create a fast visual reference guide.
/checklist	Process And Instruction	Create a checklist of actions or parts.
/decisiontree	Process And Instruction	Show what to do next at each choice.
/repairguide	Process And Instruction	Show the problem and the repair path.
/problemresolution	Process And Instruction	Compare problem, diagnosis, and solution.
/maintenanceguide	Repair, Maintenance, And Safety	Show regular service tasks.
/cleaningpoints	Repair, Maintenance, And Safety	Mark where and how to clean.
/filterreplacement	Repair, Maintenance, And Safety	Explain how a filter is removed and changed.
/lubricationpoints	Repair, Maintenance, And Safety	Mark hinges, gears, or parts needing lubricant.
/inspectionpoints	Repair, Maintenance, And Safety	Highlight areas that should be checked.
/faultfinder	Repair, Maintenance, And Safety	Highlight likely sources of failure.
/repairroute	Repair, Maintenance, And Safety	Show the safest route through a repair.
/replaceablepart	Repair, Maintenance, And Safety	Identify the component that can be replaced.
/hazardmap	Repair, Maintenance, And Safety	Highlight dangerous areas or actions.

Code word	Source/category	Short function
/safezones	Repair, Maintenance, And Safety	Show where it is safe to touch or work.
/warningpoints	Repair, Maintenance, And Safety	Mark warnings directly on the image.
/protectivegear	Repair, Maintenance, And Safety	Show the safety equipment required.
/controlpanel	Controls, Status, And Power	Explain the control panel or interface.
/screenlabels	Controls, Status, And Power	Label important screen elements.
/indicatorlights	Controls, Status, And Power	Explain lights, symbols, and status indicators.
/modechart	Controls, Status, And Power	Compare different operating modes.
/statuscomparison	Controls, Status, And Power	Show idle, active, paused, and finished states.
/onandoff	Controls, Status, And Power	Compare powered and unpowered states.
/errorstates	Controls, Status, And Power	Show common error conditions.
/errorcodes	Controls, Status, And Power	Explain visible error codes or warning symbols.
/powerroute	Controls, Status, And Power	Show where power enters and travels.
/chargingports	Controls, Status, And Power	Identify charging connections and direction.
/batteryaccess	Controls, Status, And Power	Show how to reach the battery compartment.
/batteryplacement	Controls, Status, And Power	Show battery position and orientation.

Learning and Explanation

For infographics, whiteboards, mind maps, concept maps, summaries, and educational visual notes.

When This Group Fits

Use it when you want to guide the image's practical role: selling, explaining, comparing, instructing, styling, or transforming the subject.

Examples

- `/studygram`: Explain machine learning as aesthetic study notes with headings and small diagrams.
- `/mindmap`: Create a visual map of how a SaaS team plans a launch.
- `/callouts`: Add clean labels to a product image and point out the most important features.

Code Words in This Group

Code word	Source/category	Short function
<code>/dosanddnts</code>	Learning And Explanation	Compare the correct approach with common mistakes.
<code>/troubleshootchart</code>	Learning And Explanation	Map symptoms to likely causes and simple fixes.
<code>/safetycheck</code>	Learning And Explanation	Mark the essential safety checks around the subject.
<code>/ingredientmap</code>	Learning And Explanation	Label the main ingredients and their roles.
<code>/recipeflow</code>	Learning And Explanation	Turn a recipe into a simple visual sequence.
<code>/nutritionlabel</code>	Learning And Explanation	Summarize the main nutrition facts in a clear panel.
<code>/roadmap</code>	Learning And Explanation	Arrange the main milestones on a simple visual roadmap.
<code>/comparisonmatrix</code>	Learning And Explanation	Compare several options across matching criteria.
<code>/causechain</code>	Learning And Explanation	Connect one cause through its sequence of effects.
<code>/processloop</code>	Learning And Explanation	Show a repeating process as a circular flow.
<code>/explainerboard</code>	Learning And Explanation	Teach the subject on one clean visual board.
<code>/mythfact</code>	Learning And Explanation	Compare a common myth with the correct fact.
<code>/keytakeaways</code>	Learning And Explanation	Summarize the most important points in one visual.
<code>/summarycard</code>	Learning And Explanation	Condense the subject into a quick summary card.
<code>/learningpath</code>	Learning And Explanation	Arrange skills or concepts in a clear learning order.
<code>/conceptmap</code>	Learning And Explanation	Connect the main ideas in a simple concept map.
<code>/partslegend</code>	Learning And Explanation	Pair each important part with a clear legend label.
<code>/functionlabels</code>	Learning And Explanation	Label each major part with its practical function.
<code>/glitch</code>	Digital And Data Views	Add controlled digital distortion.
<code>/hud</code>	Digital And Data Views	Add a futuristic heads-up display.

Code word	Source/category	Short function
/datastream	Digital And Data Views	Show information flowing through the scene.
/coderrain	Digital And Data Views	Use falling code as the environment.
/signalnoise	Digital And Data Views	Create television or transmission interference.
/surveillance	Digital And Data Views	Use a security-monitor viewpoint.
/scanlines	Digital And Data Views	Add a digital scanning pattern.
/falsecolor	Digital And Data Views	Use scientific false-color mapping.
/depthmap	Digital And Data Views	Use color to show distance and depth.
/heatmap	Digital And Data Views	Highlight intensity or activity with color.
/gridoverlay	Digital And Data Views	Place a technical grid over the image.
/mesh	Digital And Data Views	Show the 3D mesh structure.
/stickynotes	Annotation And Explanation	Add colorful sticky-note labels.
/postitwall	Annotation And Explanation	Create a wall of notes around the subject.
/callouts	Annotation And Explanation	Add lines pointing to important details.
/arrows	Annotation And Explanation	Use arrows to show direction or movement.
/highlighter	Annotation And Explanation	Highlight the most important areas.
/redpen	Annotation And Explanation	Add correction marks and expert notes.
/markerwriting	Annotation And Explanation	Use bold marker-style annotations.
/whiteboard	Annotation And Explanation	Turn the image into a whiteboard explanation.
/annotatedphoto	Annotation And Explanation	Add clean labels directly to the photo.
/labelmaker	Annotation And Explanation	Use tidy printed labels for each part.
/captioncard	Annotation And Explanation	Add short explanatory captions beside the subject.
/legendkey	Annotation And Explanation	Create a visual key for colors and symbols.

Styles, Materials, and Art

For illustration, art styles, textures, craft feel, material swaps, and surface effects.

When This Group Fits

Use it when you want to guide the image's practical role: selling, explaining, comparing, instructing, styling, or transforming the subject.

Examples

- /watercolor: Create a cafe on a rainy evening in a soft watercolor style.
- /clayrender: Transform an app mascot into a soft 3D clay figure.
- /linocut: Create a graphic poster with a linocut feel for a local concert.

Code Words in This Group

Code word	Source/category	Short function
/annotated sketch	Imagined Worlds And Material Styles	Turn the subject into a clean sketch with concise labels.
/technical drawing	Imagined Worlds And Material Styles	Render the subject as a precise technical drawing.
/cutaway diagram	Imagined Worlds And Material Styles	Open the subject in a labeled cutaway diagram.
/microverse	Imagined Worlds And Material Styles	Reveal a detailed miniature universe inside the subject.
/cloudworld	Imagined Worlds And Material Styles	Rebuild the subject inside a soft world of clouds.
/ancientworld	Imagined Worlds And Material Styles	Reimagine the subject inside an ancient civilization.
/timewarp	Imagined Worlds And Material Styles	Stretch the subject through a dramatic distortion of time.
/hologramworld	Imagined Worlds And Material Styles	Transform the subject into a luminous holographic world.
/plushworld	Imagined Worlds And Material Styles	Rebuild the subject as a soft plush miniature world.
/origamiworld	Imagined Worlds And Material Styles	Fold the subject and scene into an origami world.
/floatingisland	Imagined Worlds And Material Styles	Place the subject on a believable floating island.
/bottleworld	Imagined Worlds And Material Styles	Build a miniature world inside a transparent bottle.
/mushroomworld	Imagined Worlds And Material Styles	Reimagine the subject inside a surreal mushroom world.
/meltworld	Imagined Worlds And Material Styles	Melt the subject and scene into a fluid world.
/mercuryworld	Imagined Worlds And Material Styles	Rebuild the subject in a reflective liquid-metal world.
/fabricworld	Imagined Worlds And Material Styles	Construct the subject and scene entirely from fabric.
/glitchorganism	Imagined Worlds And Material Styles	Fuse the subject with a living digital glitch organism.
/dimensionleak	Imagined Worlds And Material Styles	Let another dimension leak through the subject and scene.
/realitypeel	Imagined Worlds And Material Styles	Peel back reality to expose another world underneath.
/cloudgarden	Imagined Worlds And Material Styles	Grow a dreamy garden from clouds around the subject.

Code word	Source/category	Short function
/crystalforest	Imagined Worlds And Material Styles	Place the subject inside a luminous crystal forest.
/crystalrain	Imagined Worlds And Material Styles	Surround the subject with falling crystalline rain.
/dreamlagoon	Imagined Worlds And Material Styles	Place the subject beside a surreal dreamlike lagoon.
/floatingmeadow	Imagined Worlds And Material Styles	Set the subject in a meadow floating in the sky.
/liquidsunset	Imagined Worlds And Material Styles	Melt the scene into a glowing liquid sunset.
/moonflowers	Imagined Worlds And Material Styles	Grow luminous moonlit flowers around the subject.
/opalworld	Imagined Worlds And Material Styles	Rebuild the subject in a pearlescent opal world.
/celestialgarden	Imagined Worlds And Material Styles	Place the subject inside a glowing celestial garden.
/flowerplanet	Imagined Worlds And Material Styles	Turn the subject into a planet covered in flowers.
/rainbowmist	Imagined Worlds And Material Styles	Wrap the subject in soft prismatic rainbow mist.
/starlightlake	Imagined Worlds And Material Styles	Place the subject beside a lake glowing with starlight.
/lightwaterfall	Imagined Worlds And Material Styles	Create a waterfall made from luminous flowing light.
/heavenlygarden	Imagined Worlds And Material Styles	Surround the subject with an airy heavenly garden.
/pencil study	Imagined Worlds And Material Styles	Render the subject as a refined pencil study.
/scribble art	Imagined Worlds And Material Styles	Redraw the subject with energetic scribbled lines.
/engineering sketch	Imagined Worlds And Material Styles	Present the subject as a practical engineering sketch.
/fashion sketch	Imagined Worlds And Material Styles	Restyle the subject as an elegant fashion sketch.
/chalk sketch	Imagined Worlds And Material Styles	Draw the subject with textured chalk strokes.
/paper grain	Imagined Worlds And Material Styles	Apply a visible paper-grain finish to the subject.
/rough paper	Imagined Worlds And Material Styles	Render the subject on a rough handmade paper surface.
/newsprint	Imagined Worlds And Material Styles	Print the subject with a vintage newsprint look.
/halftone dots	Imagined Worlds And Material Styles	Build the subject from bold halftone dots.
/risograph	Imagined Worlds And Material Styles	Render the subject as a layered risograph print.
/screenprint	Imagined Worlds And Material Styles	Turn the subject into a crisp screen-printed graphic.
/xerox grain	Imagined Worlds And Material Styles	Give the subject a gritty photocopied texture.
/film grain	Imagined Worlds And Material Styles	Add a natural cinematic film-grain finish.
/dust scratches	Imagined Worlds And Material Styles	Add aged dust and scratch marks to the image.
/vhs texture	Imagined Worlds And Material Styles	Give the subject an analog VHS tape texture.
/canvas weave	Imagined Worlds And Material Styles	Apply a visible woven-canvas texture to the subject.
/linen texture	Imagined Worlds And Material Styles	Give the subject a fine linen surface texture.
/felt texture	Imagined Worlds And Material Styles	Rebuild the subject with a soft felt texture.
/velvet texture	Imagined Worlds And Material Styles	Cover the subject in rich velvet texture.
/denim texture	Imagined Worlds And Material Styles	Construct the subject from durable denim fabric.
/leather grain	Imagined Worlds And Material Styles	Apply a detailed leather-grain finish to the subject.

Code word	Source/category	Short function
/suede texture	Imagined Worlds And Material Styles	Give the subject a soft brushed-suede texture.
/paper pulp	Imagined Worlds And Material Styles	Form the subject from rough pressed paper pulp.
/cardboard texture	Imagined Worlds And Material Styles	Rebuild the subject from layered cardboard.
/clay texture	Imagined Worlds And Material Styles	Sculpt the subject with a handmade clay texture.
/ceramic glaze	Imagined Worlds And Material Styles	Coat the subject in a glossy ceramic glaze.
/porcelain crackle	Imagined Worlds And Material Styles	Add a delicate crackled-porcelain finish.
/stone grain	Imagined Worlds And Material Styles	Carve the subject with a natural stone grain.
/marble veins	Imagined Worlds And Material Styles	Run elegant marble veining through the subject.
/granite texture	Imagined Worlds And Material Styles	Give the subject a speckled granite texture.
/concrete grain	Imagined Worlds And Material Styles	Cast the subject with a realistic concrete grain.
/brutalist concrete	Imagined Worlds And Material Styles	Rebuild the subject in massive brutalist concrete.
/rust patina	Imagined Worlds And Material Styles	Age the subject with a layered rust patina.
/copper patina	Imagined Worlds And Material Styles	Cover the subject in weathered copper patina.
/brushed metal	Imagined Worlds And Material Styles	Apply a clean brushed-metal finish to the subject.
/hammered metal	Imagined Worlds And Material Styles	Forge the subject with a hammered-metal surface.
/machined metal	Imagined Worlds And Material Styles	Rebuild the subject from precision-machined metal.
/mirror chrome	Imagined Worlds And Material Styles	Turn the subject into highly reflective mirror chrome.
/molten metal	Imagined Worlds And Material Styles	Form the subject from glowing molten metal.
/oilpaint	Traditional And Craft Styles	Use rich, layered oil-paint texture.
/watercolor	Traditional And Craft Styles	Use soft transparent watercolor washes.
/gouache	Traditional And Craft Styles	Use bold matte painted colors.
/inkwash	Traditional And Craft Styles	Use expressive brushwork and ink tones.
/linocut	Traditional And Craft Styles	Use carved printmaking shapes.
/woodcut	Traditional And Craft Styles	Use a vintage engraved texture.
/stainedglass	Traditional And Craft Styles	Build the subject from colored glass panels.
/paperquilling	Traditional And Craft Styles	Build the image from curled paper strips.
/claymation	Traditional And Craft Styles	Use a handmade clay animation style.
/clayrender	Traditional And Craft Styles	Make the subject look like a smooth clay model.
/papercraft	Traditional And Craft Styles	Turn the subject into a constructed paper model.
/origami	Traditional And Craft Styles	Use folded-paper geometry.
/poster	Design And Publishing	Create a bold graphic poster.
/editorial	Design And Publishing	Use a polished magazine editorial layout.
/albumcover	Design And Publishing	Create music artwork around the subject.
/comicpanel	Design And Publishing	Use a comic-book frame and composition.

Code word	Source/category	Short function
/manga	Design And Publishing	Use a manga-inspired illustration style.
/pixelart	Design And Publishing	Convert the subject into pixel graphics.
/infographic	Design And Publishing	Explain the subject with visual information blocks.
/sticker	Design And Publishing	Create a clean sticker illustration.
/labeldesign	Design And Publishing	Create a label with clear hierarchy.
/educationalposter	Design And Publishing	Combine facts, labels, and diagrams.
/chrome	Material And Surface Transformation	Give surfaces a reflective metal finish.
/glass	Material And Surface Transformation	Make the subject transparent glass.
/holographic	Material And Surface Transformation	Use a rainbow hologram finish.
/lowpoly	Material And Surface Transformation	Build the subject from faceted polygons.
/voxel	Material And Surface Transformation	Build the subject from block-like pixels.
/emboss	Material And Surface Transformation	Raise elements above a surface.
/deboss	Material And Surface Transformation	Press elements into a surface.
/foilstamp	Material And Surface Transformation	Add metallic foil printing.
/diecut	Material And Surface Transformation	Create a clean cut-out design.
/stencil	Material And Surface Transformation	Convert the subject into stencil shapes.
/halftone	Material And Surface Transformation	Use comic-book dot shading.
/duotone	Material And Surface Transformation	Limit the design to two colors.

Worlds, Environments, and Scenes

For placing subjects in new environments, building alternative worlds, stage designs, futures, and surreal settings.

When This Group Fits

Use it when you want to guide the image's practical role: selling, explaining, comparing, instructing, styling, or transforming the subject.

Examples

- /futurecity: Place a self-driving bus in a believable future city.
- /museumdisplay: Show a historical object as a curated museum exhibition.
- /weatherchange: Show the same house facade in sun, rain, snow, and fog.

Code Words in This Group

Code word	Source/category	Short function
/miniatureworld	Scenes And World Transformation	Place a tiny believable world around the subject.
/giantobject	Scenes And World Transformation	Turn the subject into a monumental oversized object.
/museumdisplay	Scenes And World Transformation	Present the subject as a curated museum exhibit.
/laboratoryscene	Scenes And World Transformation	Place the subject in a clean research laboratory.
/factoryfloor	Scenes And World Transformation	Show the subject inside an active modern factory.
/desertscene	Scenes And World Transformation	Place the subject in a cinematic desert environment.
/spacehabitat	Scenes And World Transformation	Place the subject inside a believable space habitat.
/futurecity	Scenes And World Transformation	Reimagine the scene inside a plausible future city.
/naturefusion	Scenes And World Transformation	Blend the subject naturally with plants and organic forms.
/seasonshift	Scenes And World Transformation	Show the same scene across four changing seasons.
/daytonight	Scenes And World Transformation	Transform the scene from daylight into night.
/weatherchange	Scenes And World Transformation	Show how the scene changes under different weather.
/popupstore	Scenes And World Transformation	Turn the subject into a branded pop-up store.
/streetinstallation	Scenes And World Transformation	Scale the subject into a public street installation.
/gallerywall	Scenes And World Transformation	Curate the subject as framed work on a gallery wall.
/stageconcept	Scenes And World Transformation	Turn the subject into a practical stage design concept.
/cyberpunk	Environment And Worldbuilding	Place the subject in a neon future.
/steampunk	Environment And Worldbuilding	Use Victorian machinery and brass details.
/solarpunk	Environment And Worldbuilding	Imagine an optimistic green future.
/atompunk	Environment And Worldbuilding	Use 1950s nuclear-age futurism.

Code word	Source/category	Short function
/biopunk	Environment And Worldbuilding	Blend biology and advanced technology.
/fantasyrealm	Environment And Worldbuilding	Place the subject in a magical world.
/mythic	Environment And Worldbuilding	Give the subject an epic legendary setting.
/western	Environment And Worldbuilding	Place the subject in a frontier setting.
/spaceopera	Environment And Worldbuilding	Create a grand interstellar environment.
/retrofuture	Environment And Worldbuilding	Show an old-fashioned vision of the future.
/brutalist	Environment And Worldbuilding	Use raw concrete and monumental forms.
/gothicrevival	Environment And Worldbuilding	Use dramatic historic architecture.
/underwater	Environment, Condition, And Inspection	Place the subject below the water surface.
/watersplash	Environment, Condition, And Inspection	Freeze a splash around the subject.
/dropletmacro	Environment, Condition, And Inspection	Show suspended droplets in close detail.
/inkcloud	Environment, Condition, And Inspection	Show ink spreading through liquid.
/fogbank	Environment, Condition, And Inspection	Surround the subject with thick rolling fog.
/rainstreaks	Environment, Condition, And Inspection	Show rain streaking across the view.
/timeworn	Environment, Condition, And Inspection	Make the subject aged and heavily used.
/archaeological	Environment, Condition, And Inspection	Present the subject like an excavation find.
/damagecheck	Environment, Condition, And Inspection	Highlight scratches, cracks, dents, or breaks.
/authenticitycheck	Environment, Condition, And Inspection	Highlight details that indicate authenticity.
/repairability	Environment, Condition, And Inspection	Show which parts can be repaired or replaced.

Comparison, Variants, and Decisions

For before/after views, versions, color choices, feature matrices, pros/cons, and visual recommendations.

When This Group Fits

Use it when you want to guide the image's practical role: selling, explaining, comparing, instructing, styling, or transforming the subject.

Examples

- /beforeafter: Show how a room changes before and after renovation.
- /featurematrix: Compare three subscription packages visually without making it text-heavy.
- /compatibilitycheck: Show which adapters work with a specific laptop model.

Code Words in This Group

Code word	Source/category	Short function
/scalecomparison	Scale, Comparison, And Placement	Compare size with a hand, person, or object.
/sizecomparison	Scale, Comparison, And Placement	Place several items beside each other by size.
/proportionmap	Scale, Comparison, And Placement	Show ratios between important dimensions.
/fitcheck	Scale, Comparison, And Placement	Show whether two parts or objects fit together.
/clearancecheck	Scale, Comparison, And Placement	Show the free space required around the item.
/sidebyside	Scale, Comparison, And Placement	Compare two versions in matching views.
/featurematrix	Scale, Comparison, And Placement	Compare features in a visual grid.
/proscons	Scale, Comparison, And Placement	Show advantages and disadvantages clearly.
/whichone	Scale, Comparison, And Placement	Present a visual recommendation between options.
/beforeafter	Scale, Comparison, And Placement	Show a change, repair, or transformation.
/oldnew	Scale, Comparison, And Placement	Compare an older and newer version.
/roomplacement	Scale, Comparison, And Placement	Show where the object fits in a room.

Connectivity and Compatibility

For ports, cables, adapters, accessories, mounting, storage, and practical fit questions.

When This Group Fits

Use it when you want to guide the image's practical role: selling, explaining, comparing, instructing, styling, or transforming the subject.

Examples

- /portlabels: Label all ports on a laptop dock with short, readable labels.
- /cablerouting: Show the cleanest cable routing behind a desk.
- /adaptermatch: Show which adapter fits between camera, cable, and computer.

Code Words in This Group

Code word	Source/category	Short function
/portlabels	Connectivity And Compatibility	Label every input and output port.
/cablerouting	Connectivity And Compatibility	Show the cleanest cable paths.
/wiringpath	Connectivity And Compatibility	Visualize electrical wires and their destinations.
/connectionmap	Connectivity And Compatibility	Map how parts connect to one another.
/compatibilitycheck	Connectivity And Compatibility	Show which parts or devices work together.
/accessoryfit	Connectivity And Compatibility	Demonstrate how an accessory attaches.
/adaptermatch	Connectivity And Compatibility	Show the correct adapter or connector.
/mountingoptions	Connectivity And Compatibility	Compare available mounting methods.
/cableorganization	Connectivity And Compatibility	Arrange cables in a clean, understandable layout.
/storagefit	Connectivity And Compatibility	Show how the item fits into storage.
/carrycase	Connectivity And Compatibility	Place the item into a practical travel case.
/spaceplan	Connectivity And Compatibility	Optimize the available space around the subject.

Human, Animal, and Body

For anatomy, posture, gestures, behavior sequences, environmental relationships, and body-adjacent instructions.

When This Group Fits

Use it when you want to guide the image's practical role: selling, explaining, comparing, instructing, styling, or transforming the subject.

Examples

- /posturemap: Explain good sitting posture at a home office.
- /gestureguide: Show correct hand position for a musician holding an instrument.
- /organmap: Create a simplified educational image of the digestive system.

Code Words in This Group

Code word	Source/category	Short function
/skeletonview	Human And Animal Anatomy	Show the supporting bones or framework.
/cellularview	Human And Animal Anatomy	Zoom into cells or microscopic structure.
/molecularview	Human And Animal Anatomy	Show the subject at molecular scale.
/musclemap	Human And Animal Anatomy	Label major muscles and their positions.
/organmap	Human And Animal Anatomy	Label internal organs or internal systems.
/posturemap	Human And Animal Anatomy	Explain posture, balance, and body alignment.
/gestureguide	Human And Animal Anatomy	Show a gesture or body position clearly.
/behaviorsequence	Human And Animal Anatomy	Show actions or behavior in order.
/habitatview	Human And Animal Anatomy	Place a person or animal in its environment.
/interactionmap	Human And Animal Anatomy	Show relationships between the subject and surroundings.
/firstperson	Human And Animal Anatomy	Show the scene from the subject's perspective.
/handsinframe	Human And Animal Anatomy	Show hands using or demonstrating the item.

Science, Sensory Views, and Inspection

For heat, sound, smell, fields, microscopy, radar, night vision, damage, and authenticity checks.

When This Group Fits

Use it when you want to guide the image's practical role: selling, explaining, comparing, instructing, styling, or transforming the subject.

Examples

- /thermalview: Show where a laptop gets warm under load.
- /soundwave: Add a sound wave around a speaker to show direction and intensity.
- /damagecheck: Mark scratches and cracks in a used product image.

Code Words in This Group

Code word	Source/category	Short function
/thermalview	Scientific And Sensory Views	Show heat distribution across the subject.
/thermalvision	Scientific And Sensory Views	Use a heat-camera perspective.
/infrared	Scientific And Sensory Views	Use infrared-style imaging.
/nightvision	Scientific And Sensory Views	Use a green night-vision view.
/ultrasound	Scientific And Sensory Views	Use a medical ultrasound-style view.
/radarview	Scientific And Sensory Views	Present the subject like a radar display.
/sonar	Scientific And Sensory Views	Show distance and objects through sound.
/magneticfield	Scientific And Sensory Views	Visualize magnetic field lines.
/spectrogram	Scientific And Sensory Views	Represent sound as frequencies and color.
/soundwave	Scientific And Sensory Views	Show an audio waveform around the subject.
/smellmap	Scientific And Sensory Views	Visualize the spread or concentration of a smell.
/electricalfield	Scientific And Sensory Views	Show electrical energy around the subject.

Complete Code Catalog

This file collects all 642 code words extracted from the PDF catalog.

No.	Code word	Group	Source/category	Short function
1	/packshot	Advertising and campaign	Advertising And Campaign	Create a clean studio product photo for an advertisement.
2	/luxuryedition	Advertising and campaign	Advertising And Campaign	Turn the subject into a refined luxury edition.
3	/subwayad	Advertising and campaign	Advertising And Campaign	Place the subject in a realistic subway advertisement.
4	/storefrontmockup	Advertising and campaign	Advertising And Campaign	Show the campaign across a realistic storefront.
5	/shelfhero	Advertising and campaign	Advertising And Campaign	Make the product stand out as the hero on a retail shelf.

29	/foglight	Camera, lighting, and composition	Camera And Lighting Directions	Cut visible light beams through atmospheric fog.
30	/frozenmotion	Camera, lighting, and composition	Camera And Lighting Directions	Freeze fast action with crisp detail.

No.	Code word	Group	Source/category	Short function
31	/zoomblur	Camera, lighting, and composition	Camera And Lighting Directions	Pull the background into energetic radial motion.
32	/symmetryshot	Camera, lighting, and composition	Camera And Lighting Directions	Center the subject in a precise symmetrical composition.
33	/foregroundframe	Camera, lighting, and composition	Camera And Lighting Directions	Frame the subject with objects in the foreground.
34	/miniatureworld	Worlds, environments, and scenes	Scenes And World Transformation	Place a tiny believable world around the subject.
35	/giantobject	Worlds, environments, and scenes	Scenes And World Transformation	Turn the subject into a monumental oversized object.
36	/museumdisplay	Worlds, environments, and scenes	Scenes And World Transformation	Present the subject as a curated museum exhibit.
37	/laboratoryscene	Worlds, environments, and scenes	Scenes And World Transformation	Place the subject in a clean research laboratory.
38	/factoryfloor	Worlds, environments, and scenes	Scenes And World Transformation	Show the subject inside an active modern factory.
39	/desertscene	Worlds, environments, and scenes	Scenes And World Transformation	Place the subject in a cinematic desert environment.
40	/spacehabitat	Worlds, environments, and scenes	Scenes And World Transformation	Place the subject inside a believable space habitat.
41	/futurecity	Worlds, environments, and scenes	Scenes And World Transformation	Reimagine the scene inside a plausible future city.
42	/naturefusion	Worlds, environments, and scenes	Scenes And World Transformation	Blend the subject naturally with plants and organic forms.
43	/seasonshift	Worlds, environments, and scenes	Scenes And World Transformation	Show the same scene across four changing seasons.
44	/daytonight	Worlds, environments, and scenes	Scenes And World Transformation	Transform the scene from daylight into night.
45	/weatherchange	Worlds, environments, and scenes	Scenes And World Transformation	Show how the scene changes under different weather.
46	/popupstore	Worlds, environments, and scenes	Scenes And World Transformation	Turn the subject into a branded pop-up store.
47	/streetinstallation	Worlds, environments, and scenes	Scenes And World Transformation	Scale the subject into a public street installation.
48	/gallerywall	Worlds, environments, and scenes	Scenes And World Transformation	Curate the subject as framed work on a gallery wall.
49	/stageconcept	Worlds, environments, and scenes	Scenes And World Transformation	Turn the subject into a practical stage design concept.
50	/dosanddnts	Learning and explanation	Learning And Explanation	Compare the correct approach with common mistakes.
51	/troubleshootchart	Learning and explanation	Learning And Explanation	Map symptoms to likely causes and simple fixes.
52	/safetycheck	Learning and explanation	Learning And Explanation	Mark the essential safety checks around the subject.
53	/ingredientmap	Learning and explanation	Learning And Explanation	Label the main ingredients and their roles.
54	/recipeflow	Learning and explanation	Learning And Explanation	Turn a recipe into a simple visual sequence.
55	/nutritionlabel	Learning and explanation	Learning And Explanation	Summarize the main nutrition facts in a clear panel.
56	/roadmap	Learning and explanation	Learning And Explanation	Arrange the main milestones on a simple visual roadmap.
57	/comparisonmatrix	Learning and explanation	Learning And Explanation	Compare several options across matching criteria.
58	/causechain	Learning and explanation	Learning And Explanation	Connect one cause through its sequence of effects.
59	/processloop	Learning and explanation	Learning And Explanation	Show a repeating process as a circular flow.
60	/explainerboard	Learning and explanation	Learning And Explanation	Teach the subject on one clean visual board.
61	/mythfact	Learning and explanation	Learning And Explanation	Compare a common myth with the correct fact.
62	/keytakeaways	Learning and explanation	Learning And Explanation	Summarize the most important points in one visual.
63	/summarycard	Learning and explanation	Learning And Explanation	Condense the subject into a quick summary card.
64	/learningpath	Learning and explanation	Learning And Explanation	Arrange skills or concepts in a clear learning order.

No.	Code word	Group	Source/category	Short function
65	/conceptmap	Learning and explanation	Learning And Explanation	Connect the main ideas in a simple concept map.
66	/partslegend	Learning and explanation	Learning And Explanation	Pair each important part with a clear legend label.
67	/functionlabels	Learning and explanation	Learning And Explanation	Label each major part with its practical function.
68	/openboxlayout	Retail and product presentation	Retail And Product Presentation	Arrange the opened package and contents neatly.
69	/lifestylehero	Retail and product presentation	Retail And Product Presentation	Show the product as the focus of a realistic lifestyle scene.
70	/ecommercegrid	Retail and product presentation	Retail And Product Presentation	Create matching product views for an online store grid.
71	/packagingdieline	Retail and product presentation	Retail And Product Presentation	Lay the package artwork onto a clear flat dieline.
72	/shelfcomparison	Retail and product presentation	Retail And Product Presentation	Compare competing products together on one shelf.
73	/brandcampaign	Retail and product presentation	Retail And Product Presentation	Build a cohesive branded campaign around the subject.
74	/retailisland	Retail and product presentation	Retail And Product Presentation	Stage the product on a freestanding retail island.
75	/counterdisplay	Retail and product presentation	Retail And Product Presentation	Place the product in a compact checkout display.
76	/samplekit	Retail and product presentation	Retail And Product Presentation	Arrange the product as an organized sample kit.
77	/productfamily	Retail and product presentation	Retail And Product Presentation	Show related products as one coordinated family.
78	/refillconcept	Retail and product presentation	Retail And Product Presentation	Visualize a practical refillable version of the product.
79	/travelkit	Retail and product presentation	Retail And Product Presentation	Package the product as a compact travel kit.
80	/annotated sketch	Styles, materials, and art	Imagined Worlds And Material Styles	Turn the subject into a clean sketch with concise labels.
81	/technical drawing	Styles, materials, and art	Imagined Worlds And Material Styles	Render the subject as a precise technical drawing.
82	/cutaway diagram	Styles, materials, and art	Imagined Worlds And Material Styles	Open the subject in a labeled cutaway diagram.
83	/microverse	Styles, materials, and art	Imagined Worlds And Material Styles	Reveal a detailed miniature universe inside the subject.
84	/cloudworld	Styles, materials, and art	Imagined Worlds And Material Styles	Rebuild the subject inside a soft world of clouds.
85	/ancientworld	Styles, materials, and art	Imagined Worlds And Material Styles	Reimagine the subject inside an ancient civilization.
86	/timewarp	Styles, materials, and art	Imagined Worlds And Material Styles	Stretch the subject through a dramatic distortion of time.
87	/hologramworld	Styles, materials, and art	Imagined Worlds And Material Styles	Transform the subject into a luminous holographic world.
88	/plushworld	Styles, materials, and art	Imagined Worlds And Material Styles	Rebuild the subject as a soft plush miniature world.
89	/origamiworld	Styles, materials, and art	Imagined Worlds And Material Styles	Fold the subject and scene into an origami world.
90	/floatingisland	Styles, materials, and art	Imagined Worlds And Material Styles	Place the subject on a believable floating island.
91	/bottleworld	Styles, materials, and art	Imagined Worlds And Material Styles	Build a miniature world inside a transparent bottle.
92	/mushroomworld	Styles, materials, and art	Imagined Worlds And Material Styles	Reimagine the subject inside a surreal mushroom world.
93	/meltworld	Styles, materials, and art	Imagined Worlds And Material Styles	Melt the subject and scene into a fluid world.
94	/mercuryworld	Styles, materials, and art	Imagined Worlds And Material Styles	Rebuild the subject in a reflective liquid-metal world.
95	/fabricworld	Styles, materials, and art	Imagined Worlds And Material Styles	Construct the subject and scene entirely from fabric.
96	/glitchorganism	Styles, materials, and art	Imagined Worlds And Material Styles	Fuse the subject with a living digital glitch organism.
97	/dimensionleak	Styles, materials, and art	Imagined Worlds And Material Styles	Let another dimension leak through the subject and scene.
98	/realitypeel	Styles, materials, and art	Imagined Worlds And Material Styles	Peel back reality to expose another world underneath.

No.	Code word	Group	Source/category	Short function
99	/cloudgarden	Styles, materials, and art	Imagined Worlds And Material Styles	Grow a dreamy garden from clouds around the subject.
100	/crystalforest	Styles, materials, and art	Imagined Worlds And Material Styles	Place the subject inside a luminous crystal forest.
101	/crystalrain	Styles, materials, and art	Imagined Worlds And Material Styles	Surround the subject with falling crystalline rain.
102	/dreamlagoon	Styles, materials, and art	Imagined Worlds And Material Styles	Place the subject beside a surreal dreamlike lagoon.
103	/floatingmeadow	Styles, materials, and art	Imagined Worlds And Material Styles	Set the subject in a meadow floating in the sky.
104	/liquidsunset	Styles, materials, and art	Imagined Worlds And Material Styles	Melt the scene into a glowing liquid sunset.
105	/moonflowers	Styles, materials, and art	Imagined Worlds And Material Styles	Grow luminous moonlit flowers around the subject.
106	/opalworld	Styles, materials, and art	Imagined Worlds And Material Styles	Rebuild the subject in a pearlescent opal world.
107	/celestialgarden	Styles, materials, and art	Imagined Worlds And Material Styles	Place the subject inside a glowing celestial garden.
108	/flowerplanet	Styles, materials, and art	Imagined Worlds And Material Styles	Turn the subject into a planet covered in flowers.
109	/rainbowmist	Styles, materials, and art	Imagined Worlds And Material Styles	Wrap the subject in soft prismatic rainbow mist.
110	/starlightlake	Styles, materials, and art	Imagined Worlds And Material Styles	Place the subject beside a lake glowing with starlight.
111	/lightwaterfall	Styles, materials, and art	Imagined Worlds And Material Styles	Create a waterfall made from luminous flowing light.
112	/heavenlygarden	Styles, materials, and art	Imagined Worlds And Material Styles	Surround the subject with an airy heavenly garden.
113	/pencil study	Styles, materials, and art	Imagined Worlds And Material Styles	Render the subject as a refined pencil study.
114	/scribble art	Styles, materials, and art	Imagined Worlds And Material Styles	Redraw the subject with energetic scribbled lines.
115	/engineering sketch	Styles, materials, and art	Imagined Worlds And Material Styles	Present the subject as a practical engineering sketch.
116	/fashion sketch	Styles, materials, and art	Imagined Worlds And Material Styles	Restyle the subject as an elegant fashion sketch.
117	/chalk sketch	Styles, materials, and art	Imagined Worlds And Material Styles	Draw the subject with textured chalk strokes.
118	/paper grain	Styles, materials, and art	Imagined Worlds And Material Styles	Apply a visible paper-grain finish to the subject.
119	/rough paper	Styles, materials, and art	Imagined Worlds And Material Styles	Render the subject on a rough handmade paper surface.
120	/newsprint	Styles, materials, and art	Imagined Worlds And Material Styles	Print the subject with a vintage newsprint look.
121	/halftone dots	Styles, materials, and art	Imagined Worlds And Material Styles	Build the subject from bold halftone dots.
122	/risograph	Styles, materials, and art	Imagined Worlds And Material Styles	Render the subject as a layered risograph print.
123	/screenprint	Styles, materials, and art	Imagined Worlds And Material Styles	Turn the subject into a crisp screen-printed graphic.
124	/xerox grain	Styles, materials, and art	Imagined Worlds And Material Styles	Give the subject a gritty photocopied texture.
125	/film grain	Styles, materials, and art	Imagined Worlds And Material Styles	Add a natural cinematic film-grain finish.
126	/dust scratches	Styles, materials, and art	Imagined Worlds And Material Styles	Add aged dust and scratch marks to the image.
127	/vhs texture	Styles, materials, and art	Imagined Worlds And Material Styles	Give the subject an analog VHS tape texture.
128	/canvas weave	Styles, materials, and art	Imagined Worlds And Material Styles	Apply a visible woven-canvas texture to the subject.
129	/linen texture	Styles, materials, and art	Imagined Worlds And Material Styles	Give the subject a fine linen surface texture.
130	/felt texture	Styles, materials, and art	Imagined Worlds And Material Styles	Rebuild the subject with a soft felt texture.
131	/velvet texture	Styles, materials, and art	Imagined Worlds And Material Styles	Cover the subject in rich velvet texture.
132	/denim texture	Styles, materials, and art	Imagined Worlds And Material Styles	Construct the subject from durable denim fabric.

No.	Code word	Group	Source/category	Short function
133	/leather grain	Styles, materials, and art	Imagined Worlds And Material Styles	Apply a detailed leather-grain finish to the subject.
134	/suede texture	Styles, materials, and art	Imagined Worlds And Material Styles	Give the subject a soft brushed-suede texture.
135	/paper pulp	Styles, materials, and art	Imagined Worlds And Material Styles	Form the subject from rough pressed paper pulp.
136	/cardboard texture	Styles, materials, and art	Imagined Worlds And Material Styles	Rebuild the subject from layered cardboard.
137	/clay texture	Styles, materials, and art	Imagined Worlds And Material Styles	Sculpt the subject with a handmade clay texture.
138	/ceramic glaze	Styles, materials, and art	Imagined Worlds And Material Styles	Coat the subject in a glossy ceramic glaze.
139	/porcelain crackle	Styles, materials, and art	Imagined Worlds And Material Styles	Add a delicate crackled-porcelain finish.
140	/stone grain	Styles, materials, and art	Imagined Worlds And Material Styles	Carve the subject with a natural stone grain.
141	/marble veins	Styles, materials, and art	Imagined Worlds And Material Styles	Run elegant marble veining through the subject.
142	/granite texture	Styles, materials, and art	Imagined Worlds And Material Styles	Give the subject a speckled granite texture.
143	/concrete grain	Styles, materials, and art	Imagined Worlds And Material Styles	Cast the subject with a realistic concrete grain.
144	/brutalist concrete	Styles, materials, and art	Imagined Worlds And Material Styles	Rebuild the subject in massive brutalist concrete.
145	/rust patina	Styles, materials, and art	Imagined Worlds And Material Styles	Age the subject with a layered rust patina.
146	/copper patina	Styles, materials, and art	Imagined Worlds And Material Styles	Cover the subject in weathered copper patina.
147	/brushed metal	Styles, materials, and art	Imagined Worlds And Material Styles	Apply a clean brushed-metal finish to the subject.
148	/hammered metal	Styles, materials, and art	Imagined Worlds And Material Styles	Forge the subject with a hammered-metal surface.
149	/machined metal	Styles, materials, and art	Imagined Worlds And Material Styles	Rebuild the subject from precision-machined metal.
150	/mirror chrome	Styles, materials, and art	Imagined Worlds And Material Styles	Turn the subject into highly reflective mirror chrome.
151	/molten metal	Styles, materials, and art	Imagined Worlds And Material Styles	Form the subject from glowing molten metal.
152	/luxury edition	Advertising and campaign	Recent Product And Campaign Codes	Turn the subject into a refined luxury edition.
153	/exploded view	Advertising and campaign	Recent Product And Campaign Codes	Separate the subject into clearly aligned floating parts.
154	/motion freeze	Advertising and campaign	Recent Product And Campaign Codes	Freeze fast motion, debris, and particles in midair.
155	/gradient studio	Advertising and campaign	Recent Product And Campaign Codes	Place the subject in a polished gradient studio.
156	/billboard	Advertising and campaign	Recent Product And Campaign Codes	Turn the subject into a monumental outdoor billboard.
157	/black hole	Advertising and campaign	Recent Product And Campaign Codes	Pull the subject into a cinematic black-hole scene.
158	/landing page	Advertising and campaign	Recent Product And Campaign Codes	Present the subject as a premium landing-page hero.
159	/sunbeam	Advertising and campaign	Recent Product And Campaign Codes	Shape the subject with warm directional sunbeams.
160	/energy field	Advertising and campaign	Recent Product And Campaign Codes	Surround the subject with a powerful glowing energy field.
161	/iridescent	Advertising and campaign	Recent Product And Campaign Codes	Give the subject a refined color-shifting iridescent finish.
162	/floating 3d	Advertising and campaign	Recent Product And Campaign Codes	Present the subject as a polished floating 3D object.
163	/street giant	Advertising and campaign	Recent Product And Campaign Codes	Scale the subject into a believable city-sized giant.
164	/impact	Advertising and campaign	Recent Product And Campaign Codes	Show the subject at the center of a powerful collision.
165	/rim light	Advertising and campaign	Recent Product And Campaign Codes	Sculpt the subject with a bright cinematic rim light.
166	/building wrap	Advertising and campaign	Recent Product And Campaign Codes	Wrap a real building with the subject's branded design.

No.	Code word	Group	Source/category	Short function
167	/cereal avalanche	Advertising and campaign	Product-Specific Creative Directions	Send the subject through a dramatic cereal avalanche.
168	/breakfast orbit	Advertising and campaign	Product-Specific Creative Directions	Arrange the subject in a dynamic breakfast orbit.
169	/milk vortex	Advertising and campaign	Product-Specific Creative Directions	Pull the subject into a dramatic milk vortex.
170	/crunch galaxy	Advertising and campaign	Product-Specific Creative Directions	Build a cinematic crunch galaxy around the subject.
171	/tiger spotlight	Advertising and campaign	Product-Specific Creative Directions	Stage the subject under a bold tiger spotlight.
172	/golden cascade	Advertising and campaign	Product-Specific Creative Directions	Flow a dramatic golden cascade around the subject.
173	/cola eclipse	Advertising and campaign	Product-Specific Creative Directions	Turn the subject into a striking cola eclipse.
174	/fizz halo	Advertising and campaign	Product-Specific Creative Directions	Surround the subject with a luminous fizz halo.
175	/can canyon	Advertising and campaign	Product-Specific Creative Directions	Scale the subject into a monumental can canyon.
176	/bubble portal	Advertising and campaign	Product-Specific Creative Directions	Reveal the subject through a themed bubble portal.
177	/ice monolith	Advertising and campaign	Product-Specific Creative Directions	Transform the subject into a monumental ice monolith.
178	/neon refresh	Advertising and campaign	Product-Specific Creative Directions	Give the subject a vibrant neon refresh treatment.
179	/enamel glow	Advertising and campaign	Product-Specific Creative Directions	Light the subject with a radiant enamel glow.
180	/mint tunnel	Advertising and campaign	Product-Specific Creative Directions	Place the subject inside a cinematic mint tunnel.
181	/crystal clean	Advertising and campaign	Product-Specific Creative Directions	Give the subject a precise crystal clean finish.
182	/freshness beam	Advertising and campaign	Product-Specific Creative Directions	Project a focused freshness beam from the subject.
183	/hygiene lab	Advertising and campaign	Product-Specific Creative Directions	Place the subject inside a futuristic hygiene lab.
184	/smile prism	Advertising and campaign	Product-Specific Creative Directions	Rebuild the subject as a faceted smile prism.
185	/citrus sunrise	Advertising and campaign	Product-Specific Creative Directions	Light the subject with a radiant citrus sunrise.
186	/orange cascade	Advertising and campaign	Product-Specific Creative Directions	Flow a dramatic orange cascade around the subject.
187	/juice halo	Advertising and campaign	Product-Specific Creative Directions	Surround the subject with a luminous juice halo.

251	/Tiny Workers	Advertising and campaign	New Product And Campaign Shortcuts	Add miniature workers actively building or servicing the subject.
252	/Mini Factory	Advertising and campaign	New Product And Campaign Shortcuts	Turn the product scene into a compact miniature factory.
253	/Dream Physics	Advertising and campaign	New Product And Campaign Shortcuts	Apply surreal but polished dreamlike physical behavior.
254	/Portal Emergence + Reality Tear	Advertising and campaign	New Product And Campaign Shortcuts	Make the subject emerge through a portal and torn reality.
255	/Vortex Pull	Advertising and campaign	New Product And Campaign Shortcuts	Pull ingredients, pieces, or particles into a central vortex.
256	/Attention Magnet	Advertising and campaign	New Product And Campaign Shortcuts	Build an exaggerated focal composition that commands attention.
257	/Luxury Vault	Advertising and campaign	New Product And Campaign Shortcuts	Display the product inside a secure high-end luxury vault.
258	/Billboard Bloom	Advertising and campaign	New Product And Campaign Shortcuts	Make a billboard scene burst outward with dimensional product elements.
259	/Retail Shrine	Advertising and campaign	New Product And Campaign Shortcuts	Elevate the product in a dramatic shrine-like retail display.
260	/Ember Glow	Advertising and campaign	New Product And Campaign Shortcuts	Light the subject with warm embers and glowing atmospheric particles.
261	/Mist Chamber	Advertising and campaign	New Product And Campaign Shortcuts	Place the subject inside a cinematic chamber of controlled mist.
262	/manufacturing steps	Advertising and campaign	New Product And Campaign Shortcuts	Show the product manufacturing process in clear visual stages.
263	/busstopad	Advertising and campaign	New Product And Campaign Shortcuts	Turn the subject into a striking bus-stop advertising display.
264	/crunch explosion	Advertising and campaign	New Product And Campaign Shortcuts	Explode crunchy pieces and seasoning outward around the product.
265	/crunch storm	Advertising and campaign	New Product And Campaign Shortcuts	Create a turbulent storm of snack pieces and crunchy fragments.
266	/herb cloud	Advertising and campaign	New Product And Campaign Shortcuts	Surround the food with a fresh aromatic cloud of herbs.
267	/salt crystals	Advertising and campaign	New Product And Campaign Shortcuts	Magnify sparkling salt crystals across the food and scene.

No.	Code word	Group	Source/category	Short function
268	/charred glow	Advertising and campaign	New Product And Campaign Shortcuts	Add smoky char, toasted edges, and a warm firelit glow.
269	/golden dunes	Advertising and campaign	New Product And Campaign Shortcuts	Turn golden snack texture into sweeping edible dunes.
270	/shelf stopper	Advertising and campaign	New Product And Campaign Shortcuts	Create a retail visual engineered to stop shoppers at the shelf.
271	/shock visual	Advertising and campaign	New Product And Campaign Shortcuts	Use surprising scale, contrast, or action for immediate impact.
272	/click magnet	Advertising and campaign	New Product And Campaign Shortcuts	Create a bold digital-ad visual designed to attract clicks.
273	/feed breaker	Advertising and campaign	New Product And Campaign Shortcuts	Break the visual rhythm of a social feed with dramatic composition.
274	/shelf dominance	Advertising and campaign	New Product And Campaign Shortcuts	Make the product visually dominate a competitive retail shelf.
275	/campaign punch	Advertising and campaign	New Product And Campaign Shortcuts	Give the product a decisive high-impact campaign treatment.
276	/brand thunder	Advertising and campaign	New Product And Campaign Shortcuts	Amplify brand presence with explosive cinematic energy.
277	/campaign glow	Advertising and campaign	New Product And Campaign Shortcuts	Create a polished luminous hero look for a campaign.
278	/deluxe campaign	Advertising and campaign	New Product And Campaign Shortcuts	Elevate the product into a premium deluxe advertising campaign.
279	/conversion ad	Advertising and campaign	New Product And Campaign Shortcuts	Compose a clear product-focused ad built to drive action.
280	/craving trigger	Advertising and campaign	New Product And Campaign Shortcuts	Use texture, color, and close-up detail to trigger appetite.
281	/must have	Advertising and campaign	New Product And Campaign Shortcuts	Frame the product as the irresistible item everyone wants.
282	/urge builder	Advertising and campaign	New Product And Campaign Shortcuts	Build visual anticipation and desire around the product.
283	/crave appeal	Advertising and campaign	New Product And Campaign Shortcuts	Maximize mouthwatering texture, warmth, and snack appeal.
284	/360view	Technical reveals and diagrams	Codes Tested And Used	Show the subject from every side in one clear visual.
285	/anatomy	Technical reveals and diagrams	Codes Tested And Used	Reveal and label the subject's major internal structures.
286	/cutaway	Technical reveals and diagrams	Codes Tested And Used	Remove part of the exterior to reveal what is inside.
287	/layers	Technical reveals and diagrams	Codes Tested And Used	Separate the subject into stacked construction layers.
288	/xray	Technical reveals and diagrams	Codes Tested And Used	See internal parts through the exterior surface.
289	/explodedview	Technical reveals and diagrams	Codes Tested And Used	Spread components apart while preserving their positions.
290	/microscopic	Technical reveals and diagrams	Codes Tested And Used	Zoom into a convincing microscopic level of detail.
291	/blueprint	Technical reveals and diagrams	Codes Tested And Used	Convert the subject into a technical blueprint drawing.
292	/handwritten	Technical reveals and diagrams	Codes Tested And Used	Explain the subject with natural handwritten notes.
293	/tinyplanet	Technical reveals and diagrams	Codes Tested And Used	Wrap the scene into a spherical tiny-planet view.
294	/3dbillboard	Technical reveals and diagrams	Codes Tested And Used	Turn the subject into an illusion-breaking 3D billboard.
295	/metaad	Technical reveals and diagrams	Codes Tested And Used	Create a polished Meta-style social advertisement.
296	/magazinecover	Technical reveals and diagrams	Codes Tested And Used	Turn the subject into a premium magazine cover.
297	/floating3d	Technical reveals and diagrams	Codes Tested And Used	Present the subject as a clean floating 3D object.
298	/mechanismview	Technical reveals and diagrams	Codes Tested And Used	Reveal the mechanism and how its moving parts connect.
299	/factoryline	Technical reveals and diagrams	Codes Tested And Used	Show how the subject moves through a factory line.
300	/qualitycheck	Technical reveals and diagrams	Codes Tested And Used	Mark inspection points and common quality defects.
301	/dimensions	Technical reveals and diagrams	Codes Tested And Used	Add clear, practical dimensions around the subject.

No.	Code word	Group	Source/category	Short function
302	/redesign	Technical reveals and diagrams	Codes Tested And Used	Reimagine the subject with a smarter updated design.
303	/futuristic	Technical reveals and diagrams	Codes Tested And Used	Transform the subject into a believable future version.
304	/premiumshowcase	Technical reveals and diagrams	Codes Tested And Used	Stage the subject like a premium product launch.
305	/zoom ladder	Technical reveals and diagrams	Codes Tested And Used	Move from the full subject through progressively closer detail levels.
306	/shell removal	Technical reveals and diagrams	Codes Tested And Used	Remove the outer shell while keeping the internals assembled.
307	/working principle	Technical reveals and diagrams	Codes Tested And Used	Explain the core operating principle in one visual.
308	/house skeleton	Technical reveals and diagrams	Codes Tested And Used	Reveal a building's frame, structure, and hidden systems.
309	/body systems	Technical reveals and diagrams	Codes Tested And Used	Map the body's major systems and how they connect.
310	/nutrition map	Technical reveals and diagrams	Codes Tested And Used	Map nutrients, benefits, and their sources visually.
311	/studio reconstruction	Technical reveals and diagrams	Codes Tested And Used	Reconstruct the scene as a polished studio setup.
312	/world inside	Technical reveals and diagrams	Codes Tested And Used	Reveal an imaginative miniature world inside the subject.
313	/visual dissection	Technical reveals and diagrams	Codes Tested And Used	Dissect the subject into labeled visual sections.
314	/scroll stopper	Technical reveals and diagrams	Codes Tested And Used	Create a bold, high-contrast social visual that stops scrolling.
315	/elite object	Technical reveals and diagrams	Codes Tested And Used	Elevate the subject into an exclusive luxury object.
316	/rich visual	Technical reveals and diagrams	Codes Tested And Used	Add depth, detail, and premium visual richness.
317	/visual learning whiteboard	Technical reveals and diagrams	Codes Tested And Used	Teach the subject with a clear whiteboard-style breakdown.
318	/ingredient explosion	Technical reveals and diagrams	Codes Tested And Used	Separate ingredients around the finished result.
319	/compositionmap	Technical reveals and diagrams	Codes Tested And Used	Map the main compositional zones, balance, and focal points.
320	/timelineboard	Technical reveals and diagrams	Codes Tested And Used	Arrange key moments as a visual timeline board.
321	/shotsetup	Technical reveals and diagrams	Codes Tested And Used	Diagram the camera, lighting, subject, and background setup.
322	/labeled piecebypiece	Technical reveals and diagrams	Codes Tested And Used	Separate and label every important piece one by one.
323	/internalmap	Technical reveals and diagrams	Engineering And Mechanism	Expose major internal components in their actual locations.
324	/shelloff	Technical reveals and diagrams	Engineering And Mechanism	Remove the exterior shell while keeping everything else assembled.
325	/halfsection	Technical reveals and diagrams	Engineering And Mechanism	Show one half normal and one half cut open.
326	/crossection	Technical reveals and diagrams	Engineering And Mechanism	Show a clean sliced-through view of internal construction.
327	/componenttree	Technical reveals and diagrams	Engineering And Mechanism	Map object to assemblies, subassemblies, and components.
328	/assemblyorder	Technical reveals and diagrams	Engineering And Mechanism	Arrange parts in the order they are assembled.
329	/fastenermap	Technical reveals and diagrams	Engineering And Mechanism	Highlight screws, bolts, clips, welds, adhesives, and joints.
330	/materialmap	Technical reveals and diagrams	Engineering And Mechanism	Label every material used in the subject.
331	/stressmap	Technical reveals and diagrams	Engineering And Mechanism	Visualize high, medium, and low structural stress areas.
332	/loadpath	Technical reveals and diagrams	Engineering And Mechanism	Show how forces travel through the object.
333	/mechanismflow	Technical reveals and diagrams	Engineering And Mechanism	Use arrows to show how mechanical movement transfers.
334	/powerflow	Technical reveals and diagrams	Engineering And Mechanism	Show the energy path from power source to final output.

No.	Code word	Group	Source/category	Short function
335	/signalflow	Technical reveals and diagrams	Engineering And Mechanism	Map sensors to processor to actuator or output.
336	/fluidflow	Technical reveals and diagrams	Engineering And Mechanism	Show liquids moving through the system.
337	/airflow	Technical reveals and diagrams	Engineering And Mechanism	Visualize intake, exhaust, cooling, ventilation, or aerodynamics.
338	/motionpath	Technical reveals and diagrams	Engineering And Mechanism	Show movement ranges, rotations, and trajectories.
339	/cycleview	Technical reveals and diagrams	Engineering And Mechanism	Break one full operating cycle into stages.
340	/causeeffect	Technical reveals and diagrams	Engineering And Mechanism	Connect each input or action to its resulting effect.
341	/rawtofinal	Technical reveals and diagrams	Engineering And Mechanism	Show raw materials through to the finished product.
342	/manufacturingsteps	Technical reveals and diagrams	Engineering And Mechanism	Show the factory process in four to six major stages.
343	/toolingview	Technical reveals and diagrams	Engineering And Mechanism	Show the tools and machinery used to make the product.
344	/moldview	Technical reveals and diagrams	Engineering And Mechanism	Show how the object sits inside its manufacturing mold.
345	/supplychain	Technical reveals and diagrams	Engineering And Mechanism	Map materials, factories, assembly, logistics, and customer.
346	/scalecompare	Technical reveals and diagrams	Engineering And Mechanism	Place the subject beside familiar objects for intuitive scale.
347	/sizelevels	Technical reveals and diagrams	Engineering And Mechanism	Show subject, component, microscopic structure, and molecular level.
348	/thenandnow	Technical reveals and diagrams	Engineering And Mechanism	Compare an older generation with the current design.
349	/goodvsbad	Technical reveals and diagrams	Engineering And Mechanism	Compare correct use or construction with a defective example.
350	/failuremode	Technical reveals and diagrams	Engineering And Mechanism	Show where and how the object commonly fails.
351	/designlogic	Technical reveals and diagrams	Engineering And Mechanism	Label features and explain why each design choice exists.
352	/hero	Technical reveals and diagrams	Creative And Product Directions	Create a clean hero image with the subject as the focal point.
353	/macro	Technical reveals and diagrams	Creative And Product Directions	Show extreme close-up texture and fine detail.
354	/materials	Technical reveals and diagrams	Creative And Product Directions	Identify and showcase the subject's key materials.
355	/texture	Technical reveals and diagrams	Creative And Product Directions	Emphasize surface texture, grain, and tactile detail.
356	/scale	Technical reveals and diagrams	Creative And Product Directions	Communicate the subject's real-world size clearly.
357	/silhouette	Technical reveals and diagrams	Creative And Product Directions	Reduce the subject to a bold recognizable silhouette.
358	/outline	Technical reveals and diagrams	Creative And Product Directions	Trace the subject with a clean explanatory outline.
359	/wireframe	Technical reveals and diagrams	Creative And Product Directions	Reveal the underlying geometric wireframe.
360	/transparent	Technical reveals and diagrams	Creative And Product Directions	Make the exterior transparent while preserving form.
361	/ghosted	Technical reveals and diagrams	Creative And Product Directions	Show hidden parts as faint ghosted structures.
362	/sectioned	Technical reveals and diagrams	Creative And Product Directions	Divide the subject into clearly labeled sections.
363	/unwrapped	Technical reveals and diagrams	Creative And Product Directions	Lay surfaces or packaging out as an unwrapped flat view.
364	/packaging	Technical reveals and diagrams	Creative And Product Directions	Place the subject into polished retail packaging.
365	/boxed	Technical reveals and diagrams	Creative And Product Directions	Present the subject neatly inside its box.
366	/unboxing	Technical reveals and diagrams	Creative And Product Directions	Arrange the product and contents as an unboxing scene.
367	/contents	Technical reveals and diagrams	Creative And Product Directions	Show everything included with the main item.
368	/accessories	Technical reveals and diagrams	Creative And Product Directions	Arrange compatible accessories around the subject.

No.	Code word	Group	Source/category	Short function
369	/variants	Technical reveals and diagrams	Creative And Product Directions	Compare multiple product or design variants.
370	/colorways	Technical reveals and diagrams	Creative And Product Directions	Show the subject in several coordinated color options.
371	/finish	Technical reveals and diagrams	Creative And Product Directions	Compare surface finishes such as matte, gloss, metal, or soft-touch.
372	/premium	Technical reveals and diagrams	Creative And Product Directions	Elevate the subject with restrained premium styling.
373	/minimal	Technical reveals and diagrams	Creative And Product Directions	Simplify the composition into a clean minimal presentation.
374	/industrial	Technical reveals and diagrams	Creative And Product Directions	Give the subject a robust industrial design language.
375	/retro	Technical reveals and diagrams	Creative And Product Directions	Restyle the subject with a coherent retro design language.
376	/prototype	Technical reveals and diagrams	Creative And Product Directions	Present the subject as a believable working prototype.
377	/concept	Technical reveals and diagrams	Creative And Product Directions	Turn the subject into a polished concept visualization.
378	/upgrade	Technical reveals and diagrams	Creative And Product Directions	Show a clear improved version of the subject.
379	/ergonomics	Technical reveals and diagrams	Creative And Product Directions	Explain how the subject fits the body and supports use.
380	/grip	Technical reveals and diagrams	Creative And Product Directions	Focus on hand placement, grip surfaces, and comfort.
381	/controls	Technical reveals and diagrams	Creative And Product Directions	Label controls and connect each one to its function.
382	/interface	Technical reveals and diagrams	Creative And Product Directions	Explain the interface and its main interaction zones.
383	/workflow	Technical reveals and diagrams	Creative And Product Directions	Map the practical workflow from start to finish.
384	/usage	Technical reveals and diagrams	Creative And Product Directions	Demonstrate how the subject is used in context.
385	/setup	Technical reveals and diagrams	Creative And Product Directions	Show the correct setup and placement.
386	/installation	Technical reveals and diagrams	Creative And Product Directions	Show where and how the subject is installed.
387	/maintenance	Technical reveals and diagrams	Creative And Product Directions	Mark routine maintenance tasks and access points.
388	/cleaning	Technical reveals and diagrams	Creative And Product Directions	Show the correct cleaning zones and method.
389	/repair	Technical reveals and diagrams	Creative And Product Directions	Reveal the fault and the repair path.
390	/replaceable	Technical reveals and diagrams	Creative And Product Directions	Identify parts designed to be replaced.
391	/wearpoints	Technical reveals and diagrams	Creative And Product Directions	Highlight areas most likely to wear out.
392	/weakpoints	Technical reveals and diagrams	Creative And Product Directions	Identify likely weak points and failure risks.
393	/durability	Technical reveals and diagrams	Creative And Product Directions	Visualize ruggedness, protection, and expected wear.
394	/weatherproof	Technical reveals and diagrams	Creative And Product Directions	Show protection from rain, dust, heat, and cold.
395	/thermal	Technical reveals and diagrams	Creative And Product Directions	Map heat generation, transfer, and hot zones.
396	/cooling	Technical reveals and diagrams	Creative And Product Directions	Explain airflow, cooling paths, and heat removal.
397	/acoustic	Technical reveals and diagrams	Creative And Product Directions	Visualize sound sources, direction, and damping.
398	/pressure	Technical reveals and diagrams	Creative And Product Directions	Map high- and low-pressure areas.
399	/friction	Technical reveals and diagrams	Creative And Product Directions	Show contact points and friction zones.
400	/tolerance	Technical reveals and diagrams	Creative And Product Directions	Visualize fit, clearance, and manufacturing tolerances.
401	/joints	Technical reveals and diagrams	Creative And Product Directions	Reveal the subject's joints and connection methods.
402	/gears	Technical reveals and diagrams	Creative And Product Directions	Expose gears and show how they transfer motion.

No.	Code word	Group	Source/category	Short function
403	/electronics	Technical reveals and diagrams	Creative And Product Directions	Reveal the main electronic modules and wiring.
404	/sensors	Technical reveals and diagrams	Creative And Product Directions	Map sensors, detection zones, and signals.
405	/battery	Technical reveals and diagrams	Creative And Product Directions	Show battery location, access, and power path.
406	/connectivity	Technical reveals and diagrams	Creative And Product Directions	Map wireless and wired connections.
407	/comparison	Technical reveals and diagrams	Creative And Product Directions	Compare subjects or versions in matching views.
408	/benchmark	Technical reveals and diagrams	Creative And Product Directions	Compare performance against a clear reference or competitor.
409	/insideview	Technical reveals and diagrams	Core Visual Reveals	Show the interior without fully destroying the exterior.
410	/hiddenparts	Technical reveals and diagrams	Core Visual Reveals	Reveal concealed components or structures.
411	/seethrough	Technical reveals and diagrams	Core Visual Reveals	Make selected surfaces transparent.
412	/peelback	Technical reveals and diagrams	Core Visual Reveals	Pull the outer surface aside like a flap.
413	/schematic	Technical reveals and diagrams	Technical Drafting	Simplify the subject into a functional diagram.
414	/technicaldrawing	Technical reveals and diagrams	Technical Drafting	Show accurate front, side, and top views.
415	/isometric	Technical reveals and diagrams	Technical Drafting	Create an angled engineering-style view.
416	/cadview	Technical reveals and diagrams	Technical Drafting	Present the subject like a CAD model.
417	/dimensionview	Technical reveals and diagrams	Technical Drafting	Add clear measurements around the subject.
418	/dimensionlines	Technical reveals and diagrams	Technical Drafting	Draw technical measurement lines between points.
419	/scalegrid	Technical reveals and diagrams	Technical Drafting	Use a grid to communicate size and proportion.
420	/vanishingpoint	Technical reveals and diagrams	Technical Drafting	Show the construction of perspective lines.
421	/contourmap	Technical reveals and diagrams	Technical Drafting	Show height, depth, or surface levels with lines.
422	/howitworks	Technical reveals and diagrams	Mechanism And Function	Explain the basic function visually.
423	/mechanism	Technical reveals and diagrams	Mechanism And Function	Focus on gears, hinges, levers, or moving parts.
424	/energyflow	Technical reveals and diagrams	Mechanism And Function	Show how power moves through the subject.
425	/motionflow	Technical reveals and diagrams	Mechanism And Function	Show how parts move during operation.
426	/inputoutput	Technical reveals and diagrams	Mechanism And Function	Show what enters the system and what comes out.
427	/forceanalysis	Technical reveals and diagrams	Mechanism And Function	Show pressure, force, weight, or stress.
428	/flowdiagram	Technical reveals and diagrams	Mechanism And Function	Show the movement of air, water, blood, or data.
429	/rangeofmotion	Technical reveals and diagrams	Mechanism And Function	Show how far joints or parts can move.
430	/controlmap	Technical reveals and diagrams	Mechanism And Function	Connect each control to its function.
431	/buttonmap	Technical reveals and diagrams	Mechanism And Function	Label buttons and explain what they do.
432	/portmap	Technical reveals and diagrams	Mechanism And Function	Identify ports, sockets, and connection points.
433	/assembly	Process, instruction, and safety	Process And Instruction	Show how separate parts become one object.
434	/assemblysequence	Process, instruction, and safety	Process And Instruction	Show assembly in numbered stages.
435	/disassembly	Process, instruction, and safety	Process And Instruction	Show how to take the subject apart.
436	/stepsequence	Process, instruction, and safety	Process And Instruction	Present a task frame by frame.

No.	Code word	Group	Source/category	Short function
437	/instructioncard	Process, instruction, and safety	Process And Instruction	Create a compact visual instruction card.
438	/manualpage	Process, instruction, and safety	Process And Instruction	Turn the subject into a manual-style page.
439	/quickreference	Process, instruction, and safety	Process And Instruction	Create a fast visual reference guide.
440	/checklist	Process, instruction, and safety	Process And Instruction	Create a checklist of actions or parts.
441	/decisiontree	Process, instruction, and safety	Process And Instruction	Show what to do next at each choice.
442	/repairguide	Process, instruction, and safety	Process And Instruction	Show the problem and the repair path.
443	/problemresolution	Process, instruction, and safety	Process And Instruction	Compare problem, diagnosis, and solution.
444	/maintenanceguide	Process, instruction, and safety	Repair, Maintenance, And Safety	Show regular service tasks.
445	/cleaningpoints	Process, instruction, and safety	Repair, Maintenance, And Safety	Mark where and how to clean.
446	/filterreplacement	Process, instruction, and safety	Repair, Maintenance, And Safety	Explain how a filter is removed and changed.
447	/lubricationpoints	Process, instruction, and safety	Repair, Maintenance, And Safety	Mark hinges, gears, or parts needing lubricant.
448	/inspectionpoints	Process, instruction, and safety	Repair, Maintenance, And Safety	Highlight areas that should be checked.
449	/faultfinder	Process, instruction, and safety	Repair, Maintenance, And Safety	Highlight likely sources of failure.
450	/repairroute	Process, instruction, and safety	Repair, Maintenance, And Safety	Show the safest route through a repair.
451	/replaceablepart	Process, instruction, and safety	Repair, Maintenance, And Safety	Identify the component that can be replaced.
452	/hazardmap	Process, instruction, and safety	Repair, Maintenance, And Safety	Highlight dangerous areas or actions.
453	/safezones	Process, instruction, and safety	Repair, Maintenance, And Safety	Show where it is safe to touch or work.
454	/warningpoints	Process, instruction, and safety	Repair, Maintenance, And Safety	Mark warnings directly on the image.
455	/protectivegear	Process, instruction, and safety	Repair, Maintenance, And Safety	Show the safety equipment required.
456	/controlpanel	Process, instruction, and safety	Controls, Status, And Power	Explain the control panel or interface.
457	/screenlabels	Process, instruction, and safety	Controls, Status, And Power	Label important screen elements.
458	/indicatorlights	Process, instruction, and safety	Controls, Status, And Power	Explain lights, symbols, and status indicators.
459	/modechart	Process, instruction, and safety	Controls, Status, And Power	Compare different operating modes.
460	/statuscomparison	Process, instruction, and safety	Controls, Status, And Power	Show idle, active, paused, and finished states.
461	/onandoff	Process, instruction, and safety	Controls, Status, And Power	Compare powered and unpowered states.
462	/errorstates	Process, instruction, and safety	Controls, Status, And Power	Show common error conditions.
463	/errorcodes	Process, instruction, and safety	Controls, Status, And Power	Explain visible error codes or warning symbols.
464	/powerroute	Process, instruction, and safety	Controls, Status, And Power	Show where power enters and travels.
465	/chargingports	Process, instruction, and safety	Controls, Status, And Power	Identify charging connections and direction.
466	/batteryaccess	Process, instruction, and safety	Controls, Status, And Power	Show how to reach the battery compartment.
467	/batteryplacement	Process, instruction, and safety	Controls, Status, And Power	Show battery position and orientation.
468	/portlabels	Connectivity and compatibility	Connectivity And Compatibility	Label every input and output port.
469	/cablerouting	Connectivity and compatibility	Connectivity And Compatibility	Show the cleanest cable paths.
470	/wiringpath	Connectivity and compatibility	Connectivity And Compatibility	Visualize electrical wires and their destinations.

No.	Code word	Group	Source/category	Short function
471	/connectionmap	Connectivity and compatibility	Connectivity And Compatibility	Map how parts connect to one another.
472	/compatibilitycheck	Connectivity and compatibility	Connectivity And Compatibility	Show which parts or devices work together.
473	/accessoryfit	Connectivity and compatibility	Connectivity And Compatibility	Demonstrate how an accessory attaches.
474	/adaptermatch	Connectivity and compatibility	Connectivity And Compatibility	Show the correct adapter or connector.
475	/mountingoptions	Connectivity and compatibility	Connectivity And Compatibility	Compare available mounting methods.
476	/cableorganization	Connectivity and compatibility	Connectivity And Compatibility	Arrange cables in a clean, understandable layout.
477	/storagefit	Connectivity and compatibility	Connectivity And Compatibility	Show how the item fits into storage.
478	/carrycase	Connectivity and compatibility	Connectivity And Compatibility	Place the item into a practical travel case.
479	/spaceplan	Connectivity and compatibility	Connectivity And Compatibility	Optimize the available space around the subject.
480	/scalecomparison	Comparison, variants, and decisions	Scale, Comparison, And Placement	Compare size with a hand, person, or object.
481	/sizecomparison	Comparison, variants, and decisions	Scale, Comparison, And Placement	Place several items beside each other by size.
482	/proportionmap	Comparison, variants, and decisions	Scale, Comparison, And Placement	Show ratios between important dimensions.
483	/fitcheck	Comparison, variants, and decisions	Scale, Comparison, And Placement	Show whether two parts or objects fit together.
484	/clearancecheck	Comparison, variants, and decisions	Scale, Comparison, And Placement	Show the free space required around the item.
485	/sidebyside	Comparison, variants, and decisions	Scale, Comparison, And Placement	Compare two versions in matching views.
486	/featurematrix	Comparison, variants, and decisions	Scale, Comparison, And Placement	Compare features in a visual grid.
487	/proscons	Comparison, variants, and decisions	Scale, Comparison, And Placement	Show advantages and disadvantages clearly.
488	/whichone	Comparison, variants, and decisions	Scale, Comparison, And Placement	Present a visual recommendation between options.
489	/beforeafter	Comparison, variants, and decisions	Scale, Comparison, And Placement	Show a change, repair, or transformation.
490	/oldnew	Comparison, variants, and decisions	Scale, Comparison, And Placement	Compare an older and newer version.
491	/roomplacement	Comparison, variants, and decisions	Scale, Comparison, And Placement	Show where the object fits in a room.
492	/skeletonview	Human, animal, and body	Human And Animal Anatomy	Show the supporting bones or framework.
493	/cellularview	Human, animal, and body	Human And Animal Anatomy	Zoom into cells or microscopic structure.
494	/molecularview	Human, animal, and body	Human And Animal Anatomy	Show the subject at molecular scale.
495	/musclemap	Human, animal, and body	Human And Animal Anatomy	Label major muscles and their positions.
496	/organmap	Human, animal, and body	Human And Animal Anatomy	Label internal organs or internal systems.
497	/posturemap	Human, animal, and body	Human And Animal Anatomy	Explain posture, balance, and body alignment.
498	/gestureguide	Human, animal, and body	Human And Animal Anatomy	Show a gesture or body position clearly.
499	/behaviorsequence	Human, animal, and body	Human And Animal Anatomy	Show actions or behavior in order.
500	/habitatview	Human, animal, and body	Human And Animal Anatomy	Place a person or animal in its environment.
501	/interactionmap	Human, animal, and body	Human And Animal Anatomy	Show relationships between the subject and surroundings.
502	/firstperson	Human, animal, and body	Human And Animal Anatomy	Show the scene from the subject's perspective.
503	/handsinframe	Human, animal, and body	Human And Animal Anatomy	Show hands using or demonstrating the item.
504	/cinematic	Camera, lighting, and composition	Camera And Perspective	Create a dramatic movie-frame composition.

No.	Code word	Group	Source/category	Short function
505	/filmnoir	Camera, lighting, and composition	Camera And Perspective	Use a high-contrast black-and-white look.
506	/vintagefilm	Camera, lighting, and composition	Camera And Perspective	Create an aged analog film photograph.
507	/polaroid	Camera, lighting, and composition	Camera And Perspective	Use an instant-camera print aesthetic.
508	/35mm	Camera, lighting, and composition	Camera And Perspective	Create a classic 35mm photograph.
509	/fisheye	Camera, lighting, and composition	Camera And Perspective	Use an extreme wide-angle perspective.
510	/tiltshift	Camera, lighting, and composition	Camera And Perspective	Make the scene look miniature.
511	/overhead	Camera, lighting, and composition	Camera And Perspective	Show the subject directly from above.
512	/lowangle	Camera, lighting, and composition	Camera And Perspective	Make the subject look powerful from below.
513	/topdown	Camera, lighting, and composition	Camera And Perspective	Create a flat bird's-eye view.
514	/panorama	Camera, lighting, and composition	Camera And Perspective	Expand the scene into a wide view.
515	/wormseye	Camera, lighting, and composition	Camera And Perspective	Use an extreme ground-level perspective.
516	/goldenhour	Camera, lighting, and composition	Light And Optical Behavior	Use warm sunrise or sunset light.
517	/bluehour	Camera, lighting, and composition	Light And Optical Behavior	Use cool twilight lighting.
518	/neonlight	Camera, lighting, and composition	Light And Optical Behavior	Use colorful neon illumination.
519	/rimlight	Camera, lighting, and composition	Light And Optical Behavior	Create a glowing outline around the subject.
520	/chiaroscuro	Camera, lighting, and composition	Light And Optical Behavior	Use strong light and shadow contrast.
521	/volumetric	Camera, lighting, and composition	Light And Optical Behavior	Show visible rays through the air.
522	/softbox	Camera, lighting, and composition	Light And Optical Behavior	Use clean, even studio lighting.
523	/hardflash	Camera, lighting, and composition	Light And Optical Behavior	Use sharp direct flash lighting.
524	/bokeh	Camera, lighting, and composition	Light And Optical Behavior	Turn background lights into soft circles.
525	/lensflare	Camera, lighting, and composition	Light And Optical Behavior	Add bright camera flare and streaks.
526	/prismatic	Camera, lighting, and composition	Light And Optical Behavior	Create rainbow refraction through light or glass.
527	/oilpaint	Styles, materials, and art	Traditional And Craft Styles	Use rich, layered oil-paint texture.
528	/watercolor	Styles, materials, and art	Traditional And Craft Styles	Use soft transparent watercolor washes.
529	/gouache	Styles, materials, and art	Traditional And Craft Styles	Use bold matte painted colors.
530	/inkwash	Styles, materials, and art	Traditional And Craft Styles	Use expressive brushwork and ink tones.
531	/linocut	Styles, materials, and art	Traditional And Craft Styles	Use carved printmaking shapes.
532	/woodcut	Styles, materials, and art	Traditional And Craft Styles	Use a vintage engraved texture.
533	/stainedglass	Styles, materials, and art	Traditional And Craft Styles	Build the subject from colored glass panels.
534	/paperquilling	Styles, materials, and art	Traditional And Craft Styles	Build the image from curled paper strips.
535	/claymation	Styles, materials, and art	Traditional And Craft Styles	Use a handmade clay animation style.
536	/clayrender	Styles, materials, and art	Traditional And Craft Styles	Make the subject look like a smooth clay model.
537	/papercraft	Styles, materials, and art	Traditional And Craft Styles	Turn the subject into a constructed paper model.
538	/origami	Styles, materials, and art	Traditional And Craft Styles	Use folded-paper geometry.

No.	Code word	Group	Source/category	Short function
539	/poster	Styles, materials, and art	Design And Publishing	Create a bold graphic poster.
540	/editorial	Styles, materials, and art	Design And Publishing	Use a polished magazine editorial layout.
541	/albumcover	Styles, materials, and art	Design And Publishing	Create music artwork around the subject.
542	/comicpanel	Styles, materials, and art	Design And Publishing	Use a comic-book frame and composition.
543	/manga	Styles, materials, and art	Design And Publishing	Use a manga-inspired illustration style.
544	/pixelart	Styles, materials, and art	Design And Publishing	Convert the subject into pixel graphics.
545	/infographic	Styles, materials, and art	Design And Publishing	Explain the subject with visual information blocks.
546	/sticker	Styles, materials, and art	Design And Publishing	Create a clean sticker illustration.
547	/labeldesign	Styles, materials, and art	Design And Publishing	Create a label with clear hierarchy.
548	/educationalposter	Styles, materials, and art	Design And Publishing	Combine facts, labels, and diagrams.
549	/glitch	Learning and explanation	Digital And Data Views	Add controlled digital distortion.
550	/hud	Learning and explanation	Digital And Data Views	Add a futuristic heads-up display.
551	/datastream	Learning and explanation	Digital And Data Views	Show information flowing through the scene.
552	/coderrain	Learning and explanation	Digital And Data Views	Use falling code as the environment.
553	/signalnoise	Learning and explanation	Digital And Data Views	Create television or transmission interference.
554	/surveillance	Learning and explanation	Digital And Data Views	Use a security-monitor viewpoint.
555	/scanlines	Learning and explanation	Digital And Data Views	Add a digital scanning pattern.
556	/falsecolor	Learning and explanation	Digital And Data Views	Use scientific false-color mapping.
557	/depthmap	Learning and explanation	Digital And Data Views	Use color to show distance and depth.
558	/heatmap	Learning and explanation	Digital And Data Views	Highlight intensity or activity with color.
559	/gridoverlay	Learning and explanation	Digital And Data Views	Place a technical grid over the image.
560	/mesh	Learning and explanation	Digital And Data Views	Show the 3D mesh structure.
561	/cyberpunk	Worlds, environments, and scenes	Environment And Worldbuilding	Place the subject in a neon future.
562	/steampunk	Worlds, environments, and scenes	Environment And Worldbuilding	Use Victorian machinery and brass details.
563	/solarpunk	Worlds, environments, and scenes	Environment And Worldbuilding	Imagine an optimistic green future.
564	/atompunk	Worlds, environments, and scenes	Environment And Worldbuilding	Use 1950s nuclear-age futurism.
565	/biopunk	Worlds, environments, and scenes	Environment And Worldbuilding	Blend biology and advanced technology.
566	/fantasyrealm	Worlds, environments, and scenes	Environment And Worldbuilding	Place the subject in a magical world.
567	/mythic	Worlds, environments, and scenes	Environment And Worldbuilding	Give the subject an epic legendary setting.
568	/western	Worlds, environments, and scenes	Environment And Worldbuilding	Place the subject in a frontier setting.
569	/spaceopera	Worlds, environments, and scenes	Environment And Worldbuilding	Create a grand interstellar environment.
570	/retrofutur	Worlds, environments, and scenes	Environment And Worldbuilding	Show an old-fashioned vision of the future.
571	/brutalist	Worlds, environments, and scenes	Environment And Worldbuilding	Use raw concrete and monumental forms.
572	/gothicrevival	Worlds, environments, and scenes	Environment And Worldbuilding	Use dramatic historic architecture.

No.	Code word	Group	Source/category	Short function
573	/chrome	Styles, materials, and art	Material And Surface Transformation	Give surfaces a reflective metal finish.
574	/glass	Styles, materials, and art	Material And Surface Transformation	Make the subject transparent glass.
575	/holographic	Styles, materials, and art	Material And Surface Transformation	Use a rainbow hologram finish.
576	/lowpoly	Styles, materials, and art	Material And Surface Transformation	Build the subject from faceted polygons.
577	/voxel	Styles, materials, and art	Material And Surface Transformation	Build the subject from block-like pixels.
578	/emboss	Styles, materials, and art	Material And Surface Transformation	Raise elements above a surface.
579	/deboss	Styles, materials, and art	Material And Surface Transformation	Press elements into a surface.
580	/foilstamp	Styles, materials, and art	Material And Surface Transformation	Add metallic foil printing.
581	/diecut	Styles, materials, and art	Material And Surface Transformation	Create a clean cut-out design.
582	/stencil	Styles, materials, and art	Material And Surface Transformation	Convert the subject into stencil shapes.
583	/halftone	Styles, materials, and art	Material And Surface Transformation	Use comic-book dot shading.
584	/duotone	Styles, materials, and art	Material And Surface Transformation	Limit the design to two colors.
585	/longexposure	Camera, lighting, and composition	Motion, Time, And Change	Show light trails and smooth movement.
586	/lightpainting	Camera, lighting, and composition	Motion, Time, And Change	Draw glowing paths through the scene.
587	/motionblur	Camera, lighting, and composition	Motion, Time, And Change	Emphasize movement with directional blur.
588	/timelapse	Camera, lighting, and composition	Motion, Time, And Change	Compress a long process into one image.
589	/slowmotion	Camera, lighting, and composition	Motion, Time, And Change	Make movement look suspended.
590	/stopmotion	Camera, lighting, and composition	Motion, Time, And Change	Use a handmade frame-by-frame appearance.
591	/motiontrail	Camera, lighting, and composition	Motion, Time, And Change	Leave trails behind moving elements.
592	/speedlines	Camera, lighting, and composition	Motion, Time, And Change	Add graphic action streaks.
593	/freezeframe	Camera, lighting, and composition	Motion, Time, And Change	Capture a dramatic instant in motion.
594	/timeline	Camera, lighting, and composition	Motion, Time, And Change	Show development across multiple stages.
595	/transformation	Camera, lighting, and composition	Motion, Time, And Change	Show one form becoming another.
596	/lifecycle	Camera, lighting, and composition	Motion, Time, And Change	Show creation, use, aging, and end of life.
597	/homeuse	Retail and product presentation	Everyday Context And Product Use	Show the item being used at home.
598	/deskuse	Retail and product presentation	Everyday Context And Product Use	Show a practical workstation setup.
599	/kitchenuse	Retail and product presentation	Everyday Context And Product Use	Show a realistic kitchen application.
600	/traveluse	Retail and product presentation	Everyday Context And Product Use	Show how the item works while traveling.
601	/inhandscale	Retail and product presentation	Everyday Context And Product Use	Show the real size in a person's hand.
602	/beginnerfriendly	Retail and product presentation	Everyday Context And Product Use	Make the explanation simple and approachable.
603	/lefthanded	Retail and product presentation	Everyday Context And Product Use	Show the item operated left-handed.
604	/storageplan	Retail and product presentation	Everyday Context And Product Use	Show a practical storage arrangement.
605	/cablemanagement	Retail and product presentation	Everyday Context And Product Use	Organize cables neatly around the item.
606	/drawerorganization	Retail and product presentation	Everyday Context And Product Use	Arrange small items inside a drawer.

No.	Code word	Group	Source/category	Short function
607	/accessorylayout	Retail and product presentation	Everyday Context And Product Use	Arrange the main item with its accessories.
608	/stickynotes	Learning and explanation	Annotation And Explanation	Add colorful sticky-note labels.
609	/postitwall	Learning and explanation	Annotation And Explanation	Create a wall of notes around the subject.
610	/callouts	Learning and explanation	Annotation And Explanation	Add lines pointing to important details.
611	/arrows	Learning and explanation	Annotation And Explanation	Use arrows to show direction or movement.
612	/highlighter	Learning and explanation	Annotation And Explanation	Highlight the most important areas.
613	/redpen	Learning and explanation	Annotation And Explanation	Add correction marks and expert notes.
614	/markerwriting	Learning and explanation	Annotation And Explanation	Use bold marker-style annotations.
615	/whiteboard	Learning and explanation	Annotation And Explanation	Turn the image into a whiteboard explanation.
616	/annotatedphoto	Learning and explanation	Annotation And Explanation	Add clean labels directly to the photo.
617	/labelmaker	Learning and explanation	Annotation And Explanation	Use tidy printed labels for each part.
618	/captioncard	Learning and explanation	Annotation And Explanation	Add short explanatory captions beside the subject.
619	/legendkey	Learning and explanation	Annotation And Explanation	Create a visual key for colors and symbols.
620	/underwater	Worlds, environments, and scenes	Environment, Condition, And Inspection	Place the subject below the water surface.
621	/watersplash	Worlds, environments, and scenes	Environment, Condition, And Inspection	Freeze a splash around the subject.
622	/dropletmacro	Worlds, environments, and scenes	Environment, Condition, And Inspection	Show suspended droplets in close detail.
623	/inkcloud	Worlds, environments, and scenes	Environment, Condition, And Inspection	Show ink spreading through liquid.
624	/fogbank	Worlds, environments, and scenes	Environment, Condition, And Inspection	Surround the subject with thick rolling fog.
625	/rainstreaks	Worlds, environments, and scenes	Environment, Condition, And Inspection	Show rain streaking across the view.
626	/timeworn	Worlds, environments, and scenes	Environment, Condition, And Inspection	Make the subject aged and heavily used.
627	/archaeological	Worlds, environments, and scenes	Environment, Condition, And Inspection	Present the subject like an excavation find.
628	/damagecheck	Worlds, environments, and scenes	Environment, Condition, And Inspection	Highlight scratches, cracks, dents, or breaks.
629	/authenticitycheck	Worlds, environments, and scenes	Environment, Condition, And Inspection	Highlight details that indicate authenticity.
630	/repairability	Worlds, environments, and scenes	Environment, Condition, And Inspection	Show which parts can be repaired or replaced.
631	/thermalview	Science, sensory views, and inspection	Scientific And Sensory Views	Show heat distribution across the subject.
632	/thermalvision	Science, sensory views, and inspection	Scientific And Sensory Views	Use a heat-camera perspective.
633	/infrared	Science, sensory views, and inspection	Scientific And Sensory Views	Use infrared-style imaging.
634	/nightvision	Science, sensory views, and inspection	Scientific And Sensory Views	Use a green night-vision view.
635	/ultrasound	Science, sensory views, and inspection	Scientific And Sensory Views	Use a medical ultrasound-style view.
636	/radarview	Science, sensory views, and inspection	Scientific And Sensory Views	Present the subject like a radar display.
637	/sonar	Science, sensory views, and inspection	Scientific And Sensory Views	Show distance and objects through sound.
638	/magneticfield	Science, sensory views, and inspection	Scientific And Sensory Views	Visualize magnetic field lines.
639	/spectrogram	Science, sensory views, and inspection	Scientific And Sensory Views	Represent sound as frequencies and color.
640	/soundwave	Science, sensory views, and inspection	Scientific And Sensory Views	Show an audio waveform around the subject.

No.	Code word	Group	Source/category	Short function
641	/smellmap	Science, sensory views, and inspection	Scientific And Sensory Views	Visualize the spread or concentration of a smell.
642	/electricalfield	Science, sensory views, and inspection	Scientific And Sensory Views	Show electrical energy around the subject.
